Big Lots Riverside Ca:

The Private Life of Big Frank D. Alexander, 2021-07-21 US Marine Frank Alexander parlayed a lifelong career in security to a job where he was handpicked to ensure the safety of hip hop's elite. During that time he was chosen to be Tupac's bodyguard, ultimately becoming one of the rapper's closest friends. Frank drove the vehicle that trailed Tupac's car that fatal night in Las Vegas when Tupac was murdered. He was the one that pulled the rapper's body from the bullet-riddled car before it was transported to the hospital. The events surrounding that night in Las Vegas changed Frank's life forever. This is the true story of Frank Alexander, the man who was born and raised on the tough streets of Chicago's South Side and who rose to become a championship bodybuilder, an adult devil dog, and a celebrity bodyguard. He also wrote a book and produced the movie *Before I Wake*. This story is told by Deborah Alexander, Frank's wife, who witnessed his suicide in their Southern California home. By telling his story, Deborah hopes to shed the light on the issues of depression, suicide, and post-traumatic stress disorder, which became her diagnosis following the horrific event she witnessed. On that day, she thought she crumbled. Here we are eight years later. She is a survivor. Shopping Center Directory, 2004. This multi-volume set, which is divided by region, contains sections on new and planned centers. An index of centers with available space is designed to help one locate a business site.

Resisting Change in Suburbia James Zarsadiaz, 2022-10-18. Between the 1980s and the first decade of the twenty-first century, Asian Americans in Los Angeles moved toward becoming a racial majority in the communities of the East San Gabriel Valley. By the late 1990s, their model minority status resulted in greater influence in local culture, neighborhood politics, and policies regarding the use of suburban space. In the country, living subdivisions, which featured symbols of Western agrarianism, including horse trails, ranch fencing, and Spanish colonial architecture, white homeowners encouraged assimilation and enacted policies suppressing unwanted changes that increased density and the influence of Asian culture. While some Asian suburbanites challenged white concerns, many others did not. Rather, white critics found support from affluent Asian homeowners who also wished to protect their class privilege and suburbia's conservative Anglocentric milieu. In *Resisting Change in Suburbia*, award-winning historian James Zarsadiaz explains how myths of suburbia, the American West, and the American Dream informed regional planning, suburban design, and ideas about race and belonging.

Bonacich, Jake B. Wilson, 2011-03-15 In *Getting the Goods* Edna Bonacich and Jake B Wilson focus on the Southern California ports of Los Angeles and Long Beach which together receive 40 percent of the nearly 2 trillion worth of goods imported annually to the United States to examine the impact of the logistics revolution on workers in transportation and distribution. Built around the invention of shipping containers and communications technology the logistics revolution has enabled giant retailers like Wal Mart and Target to sell cheap consumer products made using low wage labor in developing countries. The goods are shipped through an efficient low cost intermodal freight system in which containers are moved from factories in Asia to distribution centers across the United States without ever being opened. Bonacich and Wilson follow the flow of imports from Asian factories exploring the roles of importers, container shipping companies, the ports, railroad and trucking companies and warehouses. At each stage *Getting the Goods* raises important questions about how the logistics revolution affects logistics workers. Drawing extensively on interviews with workers and managers at all levels of the supply chain, on industry reports and on economic data, Bonacich and Wilson find that in general conditions have deteriorated for workers. But they also discover that changes in the system of production and distribution provide new strategic opportunities for labor to gain power. A much needed corrective to both uncritical celebrations of containerization and the global economy and pessimistic predictions about the future of the U S labor movement. *Getting the Goods* will become required reading for scholars and students in sociology, political economy and labor studies.
