Making it Real Julie A. Gorlewski, David A. Gorlewski, 2012-09-05. This book provides no answer key. If you are looking for one right answer, go elsewhere. Implicit in the current educational reform movement towards standards and standardization is the belief that the work of teachers is quantifiable, that the hours and days of contact time between teachers and students can be reduced to a number that has meaning. In short, that there is one right answer. *Making it Real Case Stories for Secondary Teachers* focuses not on the episodic nature of the standardized test but on those hours and days of contact time that represent the essence of what teachers do on a daily basis. Within that context, teachers are called upon to make hundreds of decisions each day, decisions which require knowledge and expertise about planning, learner development, content knowledge, student assessment, and ethical practice among many others. These decisions are not made easily and cannot be quantified because they take place in the complex world of human nature and human activity where values and priorities conflict and often clash. The teachers, administrators, and students in *Making it Real Case Stories for Secondary Teachers* represent the day to day situations, relationships, conflicts, and dilemmas that exist.

in every school No formulas are presented No secrets are revealed Rather the authors provide a template for analysis that encourages readers to place themselves in these real life school settings and consider the causes and consequences of their decisions for themselves their students and society as a whole Anne of Green Gables Comprehension Guide Ned Bustard,2009 **A Passion for Print** Kristine Mahood,2006-03-30 Get teens excited about reading by using your own love of books along with a good dose of market savvy This simple upbeat guide is packed with practical guidelines and a wealth of exciting ideas for promoting books and reading through everything you do from collection building designing the space and creating a Web site to booktalking readers advisory and special events A practical step by step approach Promoting books and reading is one of your most important roles but reaching teens and inspiring them to read can be a challenge especially now when teens have so many other commitments and interests This guide will inspire you to build your book knowledge and combine it with marketing savvy to bring teens together with books and reading Drawing upon recent research on teens and libraries the author offers practical guidelines and a wealth of exciting ideas for environmental reading promotions collection building designing the space creating publicity materials and developing the web site as well as interactive promotions communication with teens readers advisory booktalking partnering with other organizations and book related activities and events Based on the author s experience and the experience of others who work with teens the book provides librarians and other educators with a simple handy and upbeat guide Grades 6 12 *The Fictional Dimension of the School Shooting Discourse* Silke Braselmann,2019-06-17 Ever since the 1990s school shootings have shocked the public in their brutality their suddenness and their inexplicability While film and literature have played a role in the heated debates about so called copycat crimes the growing body of fictionalizations of school shootings has been neglected thus far However in a discourse in which the boundaries between fiction and reality are increasingly blurred this book shows how fiction shapes and structures challenges and disrupts cultural processes of meaning making Hence for a better understanding of the school shooting phenomenon the relevance of fiction on all levels of discourse construction requires thorough analysis This book therefore develops a new approach to the role of fiction for contemporary forms of excessive violence By combining narrative theory with insights from sociology and other disciplines it provides the means for apprehending and describing the relevance of fiction for contemporary discourses Furthermore it provides exemplary analyses of more specific functions of literary and filmic fictionalizations of school shootings between 2000 and 2016 Radical Reads 2 Joni Richards Bodart,2009-11-25 In *Radical Reads* Joni Richards Bodart identified 101 young adult books that featured gritty complex plots focused on multidimensional characters and tackled such difficult subjects as teenage pregnancy dysfunctional families gangs prejudice violence drugs or other provocative issues Teen readers were drawn to such books because they could identify with both the characters and the situations depicted in these raw and edgy works of fiction In *Radical Reads 2 Working with the Newest Edgy Titles for Teens* Bodart continues where the first book left off examining more than a hundred
