**A Study of Gregory Palamas** John Meyendorff,1964      **A Study of Gregory Palamas** Jean Meyendorff,1964      **A Study of Gregory Palamas** Jean Meyendorff,1974      **Gregory Palamas and the Making of Palamism in the Modern Age** Norman Russell,2019-03-21 The fourteenth century Greek hesychast and controversialist Gregory Palamas has been so successfully cast as the other in Western theological discourse that it can be difficult to gain a sympathetic hearing for him In the first part of this book Norman Russell traces the historical reception of Palamite thought in Orthodoxy and in the West and investigates how Palamism was constructed in the early twentieth century by both Western and Eastern theologians principally Martin Jugie and John Meyendorff for polemical or apologetic purposes Russell argues that we need to go behind these ideological constructions in order to gain a true perception of the teaching of Gregory Palamas In his recent survey of Palamite scholarship Robert Sinkewicz noted that it is now time to raise the larger questions The second part of the book attempts to do this following the contours of Palamas thinking in three areas his relationship to tradition his philosophy and his theology Russell shows that Palamite thought when freed of misunderstanding and misrepresentation has the potential to enrich our understanding of divine human communion This study contributes to the changing paradigm of scholarship on Palamas nudging it towards the point at which Palamite thought can be used fruitfully by contemporary Western and Eastern theologians without the need to subscribe to what has been regarded as Palamism      *Introduction À L'étude de Grégoire Palamas. A Study of Gregory Palamas ... Translated by George Lawrence. With a Pictorial Representation of Gregory.* John Meyendorff,1964      **The Neo-Palamite Synthesis of Father Dumitru Stăniloae** Adrian Agachi,2013-07-29 This book presents the contribution of Father Dumitru Stăniloae the most renowned Romanian Orthodox theologian and one of the leading figures of the Modern Orthodox Theologians to the interpretation and modern assessment of the writings of Gregory Palamas in a critical manner The introduction of the book details the life and Patristic contribution of Father Dumitru Stăniloae Although the general view is that Stăniloae was mainly a Systematic theologian the reality is that he was also a Patristic scholar All the chapters contained here include an analysis of different books and studies of Father Stăniloae and how he developed his Neo Palamite Synthesis during his lifetime Stăniloae's results are presented in a chronological manner to allow easy identification of the different views that he held concerning the writings of Gregory Palamas during the extended period he dedicated to his research This book is addressed to academics theologians and persons who take an interest in the study of Eastern Orthodoxy and significant Modern Orthodox theologians and offers them an intriguing analysis of what concerns the Patristic contribution of Father Dumitru Stăniloae      **The Filioque** A. Edward Siecienski,2010-06-03 Ed Siecienski examines how the Church has viewed the procession of the Holy Spirit throughout its history beginning with the Trinitarian controversies of the early Christian centuries The first comprehensive study of the key controversy separating the Eastern and Western churches      [St. Gregory Palamas and Orthodox Spirituality](#) John

Meyendorff,1974 This richly documented and lavishly illustrated study of Orthodox spirituality traces the development of Orthodox mysticism from the desert fathers through the patristic tradition to Byzantine hesychasm and its heritage in Russian monasticism It shows how the work of Palamas transcends the limits of one school of spirituality and renews in its deepest essence the life of the Christian Mystery Jacket Theological Foundations for Environmental Ethics Jame Schaefer,2009 This book asks whether religion can make a positive contribution to preventing further destruction of biological diversity and ecosystems and threats to our earth The author reconstructs the teachings of Augustine Thomas Aquinas and other classic thinkers to reflect our current scientific understanding of the world The Resounding Soul Samuel Kimbriel, Eric Austin Lee,2016-09-29 It is surely not coincidental that the term soul should mean not only the centre of a creature s life and consciousness but also a thing or action characterised by intense vivacity that bike s got soul It also seems far from coincidental that the same contemporary academic discussions that have largely cast aside the language of soul in their quest to define the character of human mental life should themselves be so bloodless or so lacking in soul The Resounding Soul arises from the opposite premise that the task of understanding human nature is bound up with the more critical task of learning to be fully human The papers collected here are derived from a conference in Oxford sponsored by the Centre of Theology and Philosophy and explore the often surprising landscape that emerges when human consciousness is approached from this angle Drawing upon literary philosophical theological historical and musical modes of analysis these essays remind the reader of the power of the ancient language of soul over against contemporary impulses to reduce fragment and overly determine human selfhood
