Factors Affecting Instructional Leaders Perception towards Educational Media Utilization in Classroom

Teaching Getnet Eshetu, 2015-06-01 Solution at Hand to Improve Quality presents the materials necessary for understanding problems and solutions to integrate educational media technology in classroom teaching by exploring factors that affect the perceptions of instructional leaders. A considerable portion of the Solution at Hand to Improve Quality describes the roles of media in improving the quality of teaching learning process and the roles of different actors. It focuses in identifying the instructional leaders tendency to favor on supplementary or and substitutive roles of media for classroom teaching in relation to their past training as well as experience. Solution at Hand to Improve Quality also pointed out the reasons behind for instructional leaders perception and detailed solutions for the existing problems. Finally Solution at Hand to Improve Quality presents practical recommendations for curriculum developers, education officials, teachers, educators, educational media experts, instructional leaders and even to teachers.

Teachers' Perception of the Use of Differentiated Instruction Strategies on Teacher Practice and Student Learning Dr. Althea

Seivwright-Lue, 2019-11-20 This qualitative case study was developed to explore teachers perceptions of the use of differentiated instructional strategies and the impact it had on teacher practice and student learning after engaging in a professional development initiative. Teachers were trained using two professional development modules: a 90 minute face to face module and or an eight hour book club. The research questions addressed how targeted professional development in differentiated instruction changed teacher instructional practice and how teachers who used differentiated instructional strategies and techniques perceived these strategies impacted student learning. Data instruments included teacher perception surveys, demographic surveys, classroom observations, lesson plan checklists, semi structured questionnaires and book club evaluations were collected over a two month time period, were analyzed from themes using a manual coding system. Based on the multiple sources of data collected, teachers needed change for their instructional practices and more differentiated instructional strategies in their daily lesson delivery models.

Contemporary Perspective on Child Psychology and Education Şenay Çetinkaya, 2018-01-24

In contemporary understanding the working areas of children's psychology are expanding considerably. The mental health of the children ensures that they are able to use their developmental abilities, cope with difficulties in life, be productive and be creative and demonstrate cognitive, emotional and behavioral characteristics appropriate to their developmental turn. This research was conducted to be able to identify behavioral disorders that may be a sign of children's mental problems and to shed light on the resolution of possible problems by facilitating the follow up of psychosocial developments during the period of growth. This book presents an overview of the contemporary approaches in the departments of child education and psychology with the hope of them growing up as happy, peaceful, balanced, thoughtful, confident and successful individuals.
