Africa Lost Rhodesias Coin Killing Machine Sofrep:

Africa Lost Dan Tharp, SOFREP, Brandon Webb, 2013-08-06 US military veteran and historian Dan Tharp's *Africa Lost* tells the inside story of some of the greatest special operators you've never heard of. Some of the most explosive combat in Special Operations history is almost completely unknown to the Western World. Everyone knows about Navy SEALs and Green Berets but nobody knows about the deep reconnaissance sabotage and direct action missions conducted by the Rhodesian SAS. The Rhodesian Light Infantry was a killing machine participating in combat jumps every night during the heat of the Bush War. The Selous Scouts were perhaps the most innovative and daring unconventional warfare unit in history which would pair white soldiers with turncoat black former terrorists who would then infiltrate enemy camps. *Ranger Knowledge* Erik Larsen, Jack Murphy, SOFREP, Brandon Webb, 2013-08-06 Filled with entertaining anecdotes and an insider's knowledge, *Ranger Knowledge* is a must read for prospective rangers and armchair military enthusiasts everywhere. Written by a former 75th Ranger Regiment soldier, Marty will take you inside the Ranger Assessment and Selection Program and the Special Forces Assessment and Selection Program to teach prospective Special Operations soldiers the ins and outs of each unit's selection program. As someone who also runs a train-up program for soldiers going into the military on Ranger and Special Forces contracts, Marty is uniquely suited to write a program of instruction which walks through the course and tells them how to get from A to B and achieve their goals in the Special Operations community.

The ISIS Solution Jack Murphy, Brandon Webb, Peter Nealen, 2014-11-18 The New York Times bestselling authors and former Special Operations veterans Brandon Webb, Jack Murphy and Peter Nealen details the dangers of ISIS and how America can stop the religious extremist threat at last. It's too soon to say what steps the United States will take against ISIS. I don't want to put the cart before the horse. Obama told reporters during a White House news briefing, "We don't have a strategy yet." former President Obama: "If we have been at war with terror for over a decade and still don't have solid strategies for dealing with radical terrorism, then what have we really been doing the last thirteen years? It's a good question to ask yourself, and at least the former President was telling the truth when he said we don't have a strategy for ISIS. As ISIS grows in strength with each successful battle, they will also set up the infrastructure of something resembling a functional state. They will become a self-funded organization making millions of dollars from oil revenue. Left unchecked, it is hard to say how powerful they could become. The dream of a pan-Islamic caliphate is most certainly beyond their reach, however, they could carve out a very large swath of the Middle East for their empire. If ISIS were to capture the first and second most holy sites of the Islamic faith, Mecca and Medina, the entire Middle East may very well implode. *The ISIS Solution* takes a look at the current geopolitical situation, organizational structure of ISIS and provides new thinking and strategies for dealing with the Islamic State in the Middle East. Its authors and contributors have over fifty years of combined experience in the intelligence analyst and Special Operations communities. Leadership and a new philosophical conversation of action is needed to

eliminate violent terrorism This book starts the conversation
