After The Feeling Urban Christian:

After the First Urban Christians Todd D. Still, David G. Horrell, 2009-11-13 After the First Urban Christians introduces the groundbreaking volume The First Urban Christians to a new generation of students scholars and even general readers

Educating Moral Sensibilities in Urban Schools, 2019-02-11 Nowadays schools face the challenge of creating pedagogical environments that are sensitive to numerous individual backgrounds in order to support students social and academic success Urban schools are communities with rich possibilities to learn how to think feel and act morally In this task principals teachers parents and students of the schools each have their own voice All these voices have to be heard in order to build communities with moral sensibilities This book brings together recent work by international researchers from nine countries in the fields of moral development and citizenship education The book consists of twelve chapters and it is divided into three parts While the first part deals with the voices of urban school educators the second part contains chapters with the focus on students The third part is about curriculum programs and practices in schools that contribute to the education of moral sensibilities in the school communities This book can be used as a textbook in moral and citizenship education or as an updated research report on international research on moral sensibilities The First Urban Christians Wayne A.

Meeks, 2003-01-01 Meeks analyzes the letters of Paul to see what kind of people joined the Christian groups in the urban centers and what it was like to be a Christian then China's Urban Christians Brent Fulton, 2016-12-29 China's Urban Christians A Light at Cannot Be Hidden looks at how massive urbanization is redrawing not only the geographic and social landscape of China but in the process is transforming China's growing church as well The purpose of this book is to explore how Christians in China perceive the challenges posed by their new urban context and to examine their proposed means of responding to these challenges Although not primarily political in nature these challenges nonetheless illustrate the complex interplay between China's Christian community and the Chinese party state as it comes to terms with the continued growth and increasing prominence of Christianity in modern China The Way of the Urban Monk Joe Colletti, 2024-10-09

Dedicating your life to social justice is a worthy endeavor But how do you sustain the challenging work amid the inevitable challenges and setbacks In this book social reformer Joe Colletti provides direction for aspiring urban monks by drawing on decades of on the ground experience working toward solving social struggles as well as his own journey creating an integrated rule of life to spiritually guide his lifelong work Chapter by chapter he sets you up for an intentional life of involvement in social reform coaching you on how to choose your social struggle select the spiritual principles and practices that will make up your own unique integrated rule of life and merge your spiritual and secular efforts Equal parts pragmatism and mysticism The Way of the Urban Monk offers practical wisdom and soulful guidance for those committed to helping end seemingly intractable social injustices enabling them to serve more effectively and from a place of spiritual wholeness *Christianity* Philip Kennedy, 2011-02-22 The Christian faith has the allegiance of one third of the human race It

has succeeded in influencing civilization to such a degree that we now take its existence almost for granted Yet it might all have been so different Christianity began with the words and deeds of an obscure village carpenter s son who died a shameful criminal s death at the hands of the Roman occupiers of his country itself an insignificant outpost of the powerful ruling Empire The feverish land of biblical Palestine awash with apocalyptic expectations of deliverance from its foreign overlords was hardly short of seers and prophets who claimed to be sent visions from God Yet the followers of this man thought he was different so different in fact that some years after his death and asserted resurrection they scandalously insisted not only that he was sent by God but that he was God How a provincial sect with its seemingly outrageous ideas became first the sanctioned religion of the Roman Empire and then over the course of 2000 years the creed of billions of people is the improbable story that this book tells It is a story of freethinkers friars fanatics and firebrands and of the lay people not just the clerical or the powerful who have made up the great mass of Christians over the centuries Many introductions to Christianity are written by Christians for Christians This elegant textbook by contrast shows that the history of the religion while often glorious is not one of unimpeded progress but something still more remarkable flawed and human
