Appraisal Meeting Day Nicole Eng:

Motherhood Across Borders Gabrielle Oliveira, 2018-07-24 While we have an incredible amount of statistical information about immigrants coming in and out of the United States we know very little about how migrant families stay together and raise their children Beyond the numbers what are the everyday experiences of families with members on both sides of the border Focusing on Mexican women who migrate to New York City and leave children behind this book examines parenting from afar as well as the ways in which separated siblings cope with different experiences across borders Drawing on more than three years of ethnographic research Gabrielle Oliveira offers a unique look at the many consequences of maternal migration Oliveira illuminates the life trajectories of separated siblings including their divergent paths and the everyday struggles that the undocumented mother may go through in order to be a good parent to all of her children no matter where they live Despite these efforts the book uncovers the far reaching effects of maternal migration that influence both the children who accompany their mothers to New York City and those who remain in Mexico The Chemical Engineer, 2001 The English Record, 1965 **Naïda** Scott Overton, 2021-06-01 The glowing structure at the bottom of a lonely northern lake is not of this Earth But Michael Hart can't stay away His encounter will leave him utterly changed with astonishing new abilities and a destiny he could never have imagined From then on the choices he makes will affect the very future of humanity and Michael will either become a hero or the greatest traitor the world has ever known Because he is no longer alone not even in his own body There is another Naïda **Commerce Business Daily**, 1997-12-31 **Innovation in Language Learning and Teaching** Diego Mideros, Nicole Roberts, Beverly-Anne Carter, Hayo Reinders, 2023-09-05 This book presents a unique perspective from an underrepresented region in the Global South The volume features four different countries in the region Barbados Guyana St Lucia and Trinidad and Tobago as well as Martinique an island located just north of St Lucia which is an overseas region of France It documents innovations in learning and teaching Spanish French and Chinese in the case of the English speaking countries and English as a foreign language EFL in the case of Martinique The chapters cover different aspects of language education in the Caribbean and will be of particular interest to those involved in managing change in language education that attempts to mediate between global trends and local needs The Lancet, 1914 Connecting Canadians Andrew Clement, 2012 Connecting Canadians examines the role of community informatics or community based ICT initiatives in this process of transition The Community Research Alliance for Community Innovation and Networking CRACIN set out to study how civil society groups in locations ranging from Vancouver to Labrador and from remote Northern communities to Toronto and Montreal sought to enable local communities to develop on their own terms within the broader context of federal and provincial policies and programs Drawing on diverse theoretical perspectives from sociology to library and information sciences to women's studies the essays not only document specific local initiatives but analyze the overall trajectory of the government's vision of a digitally inclusive Canada **The Most Important Work** Kyle

D. Shanton, 2015-05-27 This book is a collection of essays that reflect the desire and determination guiding many practitioners and researchers as they work together in more meaningful and relevant ways for literacy. The essays are organized as three series of dialogues in which an academic scholar works with a practitioner or community leader on a particular struggle toward teaching, learning, and literacy. Together they portray the reflexive relationships involved in their shared endeavor, the different struggles for sovereignty they encountered, what they accomplished together, and what they learned by honoring one another's knowledge and skill. The work presented in this book reflects intentional connections among practitioners and researchers in terms of how they engaged with children, youth, and families to compose their language, lives, and culture into literacy for personal, political, and practical purposes that both pertain to and transcend contexts of school. Moreover, these narratives highlight a shared commitment to frame and forge such work in nuanced terms of solidarity and sovereignty rather than as stark assertions of this is what needs to be done and this is how to do it.
