A Military History Of China:

A Military History of China David A. Graff, Robin Higham, 2012-04-13 Gaining an understanding of China's long and sometimes bloody history can help to shed light on China's ascent to global power. Many of China's imperial dynasties were established as the result of battle from the chariot warfare of ancient times to the battles of the Guomindang KMT and Communist regimes of the twentieth century. China's ability to sustain complex warfare on a very large scale was not emulated in other parts of the world until the Industrial Age despite the fact that the country is only now rising to economic dominance. In A Military History of China Updated Edition David A. Graff and Robin Higham bring together leading scholars to offer a basic introduction to the military history of China from the first millennium B.C.E. to the present. Focusing on recurring patterns of conflict rather than traditional campaign narratives, this volume reaches farther back into China's military history than similar studies. It also offers insightful comparisons between Chinese and Western approaches to war. This edition brings the volume up to date including discussions of the Chinese military's latest developments and the country's most recent foreign conflicts.

A Military History of China David Andrew Graff, Robin D. S. Higham, 2002 Armed conflict has always played an important role in Chinese history. Most of China's imperial dynasties were established as a result of success in battle and the same may be said of the Guomindang KMT and Communist regimes in the 20th century. This volume offers a basic introduction to the military history of China from the second millennium B.C.E. to the present and is intended to be accessible to non-specialists. The book's sixteen chapters organized along both thematic and chronological lines deal with such topics as Continuity and Change, Military Writings, Warlordism in Early Republican China, The Sino-Japanese War, and Recent Developments in Chinese Military. A Military History of China focuses on recurring issues, problems, and patterns of conflict rather than traditional campaign narratives, and each chapter includes suggestions for further reading.

History of China's Military Dr. R K Sahay, 2016-09-01 The recorded military history of China extends from about 2200 BC to the present day This history can be divided into the military history of China before 1911 when a revolution overthrew the imperial state and the period of the Republic of China Army and the People's Liberation Army Although traditional Chinese Confucian philosophy favored peaceful political solutions and showed contempt for brute military force the military was influential in most Chinese states Chinese pioneered the use of crossbows advanced metallurgical standardization for arms and armor early gunpowder weapons and other advanced weapons but also adopted nomadic cavalry and Western military technology The book deeply highlights the Military History of China and its strategies

The Military History of the Spring and Autumn Period and the Warring States Period Li Shi, The book is the volume of The Military History of the Spring and Autumn Period and the Warring States Period among a series of books of Deep into China Histories The earliest known written records of the history of China date from as early as 1250 BC from the Shang dynasty c 1600 1046 BC and the Bamboo Annals 296 BC describe a Xia dynasty c 2070 1600 BC before the Shang but no writing is known from the period The Shang ruled in the Yellow River valley which is commonly held to be the cradle of Chinese civilization However Neolithic civilizations originated at various cultural centers along both the Yellow River and Yangtze River These Yellow River and Yangtze civilizations arose millennia before the Shang With thousands of years of continuous history China is one of the world's oldest civilizations and is regarded as one of the cradles of civilization The Zhou dynasty 1046 256 BC supplanted the Shang and introduced the concept of the Mandate of Heaven to justify their rule The central Zhou government began to weaken due to external and internal pressures in the 8th century BC and the country eventually splintered into smaller states during the Spring and Autumn period These states became independent and warred with one another in the following Warring States period Much of traditional Chinese culture literature and philosophy first developed during those troubled times In 221 BC Qin Shi Huang conquered the various warring states and created for himself the title of Huangdi or emperor of the Qin marking the beginning of imperial China However the oppressive government fell soon after his death and was supplanted by the longer lived Han dynasty 206 BC 220 AD Successive dynasties developed bureaucratic systems that enabled the emperor to control vast territories directly In the 21 centuries from 206 BC until AD 1912 routine administrative tasks were handled by a special elite of scholar officials Young men well versed in calligraphy history literature and philosophy were carefully selected through difficult government examinations China's last dynasty was the Qing 1644 1912 which was replaced by the Republic of China in 1912 and in the mainland by the People's Republic of China in 1949 Chinese history has alternated between periods of political unity and

peace and periods of war and failed statehood the most recent being the Chinese Civil War 1927-1949. China was occasionally dominated by steppe peoples most of whom were eventually assimilated into the Han Chinese culture and population. Between eras of multiple kingdoms and warlordism Chinese dynasties have ruled parts or all of China in some eras control stretched as far as Xinjiang and Tibet as at present. Traditional culture and influences from other parts of Asia and the Western world carried by waves of immigration cultural assimilation expansion and foreign contact form the basis of the modern culture of China.
