A Modern Epidemic Expert Perspectives On Obesity And Diabetes:

A Modern Epidemic Louise A. Baur, Stephen M. Twigg, Roger S. Magnusson, 2012 Diabetes obesity and their related diseases make up one of the greatest challenges to human health in the 21st century In *A Modern Epidemic Expert Perspectives on Obesity and Diabetes* a diverse group of researchers and clinicians from the University of Sydney has joined forces to discuss how to tackle these major health challenges Obesity and diabetes are not just problems for the individual They pose risks to the environmental psychological and economic stability of the entire world The solutions therefore need to be equally wide ranging and accessible to all Acknowledging this the authors write in an engaging style about the causes and consequences of obesity and diabetes as well as prevention and treatment how to identify and mitigate the risk factors deliver targeted and effective healthcare and formulate global strategies to ultimately turn the tide on the 21st century s most devastating diseases Values and Choices in Television Discourse Roberta Piazza, Louann Haarman, Anne

Caborn, 2016-04-29 The high pressured fast paced environment of television production leaves little time for producers to reflect on how the potentialities of texts and images will be interpreted outside of the immediate broadcast imperatives This volume brings together the producers and analysts of television in a formal and productive way *Research Handbook on Global Health Law* Gian Luca Burci, Brigit Toebes, 2018-11-30 The effect of Globalization on health has attracted the attention of scholars and policy makers across multiple disciplines A key concern is the regulation of international health protection and in particular the use of international health instruments and the complex interaction between international law and health considerations For the first time a group of law and policy scholars have analysed these issues drawing on knowledge from their respective fields The resulting book provides comprehensive coverage of contemporary issues in global health law and governance

Urbanization And Public Health In China Mu Li, Yangfeng Wu, 2015-11-13 Urbanization has dominated China s development landscape in recent decades yet the human costs of this economic achievement are largely ignored in commentaries on the subject *Urbanization and Public Health in China* seeks to redress this imbalance by bringing together academics and researchers from across China and Australia to offer fresh perspectives on public health issues resulting from urbanization The analyses focus on issues of unequal access to health services by the most vulnerable groups the elderly and rural to urban migrants The book explores these issues through demographic epidemiological and environmental change in China over the past three decades and identifies solutions to create a healthier living environment in urban China Other countries undergoing similar rapid urbanization can learn vital lessons from these challenges and solutions This book provides a comprehensive overview for academics and researchers working on urbanization in developing nations as well as a reference point for policy makers and public health practitioners
