A New Buddhist Path David Loy, 2015-02-03 David R Loy addresses head on the most pressing issues of Buddhist philosophy in our time What is the meaning of enlightenment is it an escape from the world or is it a form of psychological healing How can one reconcile modern scientific theory with ancient religious teachings What is our role in the universe Loy shows us that neither Buddhism nor secular society by itself is sufficient to answer these questions Instead he investigates the unexpected intersections of the two

A New Buddhist Path David R. Loy, 2015-02-10 Engage with a new vision of Buddhism and the modern world with the bestselling author of *Money Sex War Karma Notes for a Buddhist Revolution* David R Loy addresses head on the most pressing issues of Buddhist philosophy in our time What is the meaning of enlightenment is it an escape from the world or is it a form of psychological healing How can one reconcile modern scientific theory with ancient religious teachings What is our role in the universe Loy shows us that neither Buddhism nor secular society by itself is sufficient to answer these questions Instead he investigates the unexpected intersections of the two Through this exchange he uncovers a new Buddhist way one that is faithful to the important traditions of Buddhism but compatible with modernity This way we can see the world as it is truly realize our indivisibility from it and learn that the world's problems are our problems This is a new path for a new world

What Is Buddhist Enlightenment? Dale S. Wright, 2016-09-01 Dale Wright offers a wide ranging exploration of issues that have a bearing on the contemporary meaning of enlightenment He considers the historical meanings of enlightenment within various Buddhist traditions but does so in order to expand on the larger question that our lives press upon us what kinds of lives should we aspire to live here now and into the future

Buddhist Ethics Jay L. Garfield, 2022 Buddhist Ethics presents an outline of Buddhist ethical thought It is not a defense of Buddhist approaches to ethics as opposed to any other nor is it a critique of the Western tradition Garfield presents a broad overview of a range of Buddhist approaches to the question of moral philosophy He draws on a variety of thinkers reflecting the great diversity of this 2500 year old tradition in philosophy but also the principles that tie them together In particular he engages with the literature that argues that Buddhist ethics is best understood as a species of virtue ethics and with those who argue that it is best understood as consequentialist Garfield argues that while there are important points of contact with these Western frameworks Buddhist ethics is distinctive and is a kind of moral phenomenology that is concerned with the ways in which we experience ourselves as agents and others as moral fellows With this framework Garfield explores the connections between Buddhist ethics and recent work in moral particularism such as that of Jonathan Dancy as well as the British and Scottish sentimental tradition represented by Hume and Smith

The Oxford Handbook of Buddhist Ethics Daniel Cozort, James Mark Shields, 2018 A comprehensive overview of the study of Buddhist ethics in the twenty first century

Reimagining Zen in a Secular Age André van der Braak, 2020-08-03 In *Reimagining Zen in a Secular Age* Andr van der Braak offers an account of the exciting but also problematic encounter between enchanted Japanese Zen Buddhism and

secular Western modernity over the past century using Charles Taylor's magnum opus *A Secular Age* as an interpretative lens As the tenuous compromises of various forms of Zen modernism are breaking down today new imaginings of Zen are urgently needed that go beyond both a Romantic mystical Zen and a secular mindfulness Zen As a Zen scholar practitioner Andr van der Braak shows that the Zen philosophy of the 13th century Zen master Dogen offers much resources for new hermeneutical embodied non instrumental and communal approaches to contemporary Zen theory and practice in the West

Secularizing Buddhism Sarah Shaw, Bhikku Bodhi, Kate Crosby, Roger Jackson, 2021-08-03 A timely essay collection on the development and influence of secular expressions of Buddhism in the West and beyond How do secular values impact Buddhism in the modern world What versions of Buddhism are being transmitted to the West Is it possible to know whether an interpretation of the Buddha's words is correct In this new essay collection opposing ideas that often define Buddhist communities secular versus religious modern versus traditional Western versus Eastern are unpacked and critically examined These reflections by contemporary scholars and practitioners reveal the dynamic process of reinterpreting and reimagining Buddhism in secular contexts from the mindfulness movement to Buddhist shrine displays in museums to whether rebirth is an essential belief This collection explores a wide range of modern understandings of Buddhism whether it is considered a religion philosophy or lifestyle choice and questions if secular Buddhism is purely a Western invention offering a timely contribution to an ever evolving discussion Contributors include Bhikkhu Bodhi Kate Crosby Gil Fronsdal Kathleen Gregory Funie Hsu Roger R Jackson Charles B Jones David L McMahan Richard K Payne Ron Purser Sarah Shaw Philippe Turenne and Pamela D Winfield

Mackenzie Brown, 2020-12-17 This volume brings together diverse Asian religious perspectives to address critical issues in the encounter between tradition and modern western evolutionary thought Such thought encompasses the biological theories of Charles Darwin Jean Baptiste Lamarck Earnest Haeckel Thomas Huxley and later neo Darwinians as well as the more sociological evolutionary theories of thinkers such as Herbert Spencer Pyotr Kropotkin and Henri Bergson The essays in this volume cover responses from Hindu Jain Buddhist Chinese Japanese and Indo Tibetan Confucian Daoist and Muslim traditions These responses come from the decades immediately after publication of *The Origin of Species* up to the present with attention being paid to earlier perspectives and teachings within a tradition that have affected responses to Darwinism and western evolutionary thought in general The book focuses on three critical issues the struggle for survival and the moral implications read into it genetic variation and its seeming randomness as related to the problems of meaning and purpose and the nature of humankind and human exceptionalism Each essay deals with one or more of the three issues within the context of a specific tradition

Cultural Understanding of Soils Nikola Patzel, Sabine Grunwald, Eric C. Brevik, Christian Feller, 2023-09-22 Cultural understandings of soil are diverse and often ambiguous Cultural framing of soils is common worldwide and is highly consequential The implications of what place the earth has in people's world view and everyday life can be in line with or in conflict with natural conditions with scientific views or with agricultural practices The main assumption underlying this work is that soil is inescapably perceived in a cultural context by any human This gives emergence to different significant webs of meaning influenced by religious spiritual or secular myths and by a wide range of beliefs values and ideas that people hold in all societies These patterns and their dynamics inform the human soil relationship and how soils are cared for protected or degraded Therefore there is need to deal inter culturally with different sources and types of knowledge and experience regarding soil a need to cultivate soil awareness and situationally appropriate care through inter and intra cultural dialogues and learning This project focuses on the human and intangible dimensions of soil To serve this aim the International Union of Soil Sciences IUSS founded a working group on Cultural Patterns of Soil Understanding that has resulted in this book which presents studies from almost all continents written by soil scientists and experts from other disciplines A major objective of this project is to promote intercultural literacy that gives readers the opportunity to appreciate soil across disciplinary and cultural boundaries in an increasingly globalized world
