A Poverty Profile Of Cambodia World Bank Discussion Paper:

A Poverty Profile of Cambodia Nicholas M. Prescott, Menno Pradhan, 1997-01-01 China is in the throes of two transitions from a command economy to a market based one and from a rural agricultural society to an urban industrial one So far both transitions have been spectacularly successful China is the fastest growing economy in the world with per capita incomes more than quadrupling since 1978 achieving in two generations what took other countries centuries Although swift growth and structural change have resolved many problems they also have created new challenges employment insecurity growing inequality stubborn poverty mounting environmental pressures rising costs of food self sufficiency and periods of macroeconomic instability stemming from incomplete reforms Unmet these challenges could undermine the sustainability of growth and China s promise could fade China 2020 a seven volume set examines China s recent history where it is today and the path it should follow during the first two decades of the 21st century The volume in the set entitled Financing Health Care Issues and Options for China assesses the state of health care in China and addresses the problems facing the sector in terms of financial access to health care efficiency and total cost Although the health sector is in relatively good condition today this study asserts the need to promptly make policy changes to ensure universal health care coverage by either the public or the private sector over the next two decades Chapters focus on the effects of reduced public health spending on rural populations the likely increase in health costs as the population ages the harmful effects of tobacco use and fee for service provider systems

A Poverty Profile of Cambodia, 2004 ,2006 **A Poverty Profile of Cambodia, 1999** ,1998 Handbook on Poverty + Inequality Jonathan Haughton, Shahidur R. Khandker, 2009-03-27 For anyone wanting to learn in practical terms how to measure describe monitor evaluate and analyze poverty this Handbook is the place to start It is designed to be accessible to people with a university level background in science or the social sciences It is an invaluable tool for policy analysts researchers college students and government officials working on policy issues related to poverty and inequality

Cambodia Poverty Assessment ,1999 **The World Bank Research Program 1998** World Bank Staff, 1998 The four basic objectives of the World Bank s research program are broadening understanding of development assisting in developing research capacity in member countries improving the Bank s capacity in advising members and supporting all aspects of its own operations The report is the annual compendium of current Bank research The abstracts in this volume report on research projects within FY98 describing questions addressed analytical methods used findings to date and policy implications In addition each abstract identifies the expected completion date and the research team as well as any report or publication produced The abstracts cover 193 research projects grouped under nine major headings as follows

- 1 poverty and social welfare
- 2 labor markets and education
- 3 environmentally sustainable development
- 4 infrastructure and urban development
- 5 macroeconomics
- 6 international economics
- 7 domestic finance and capital markets
- 8 transition economies and
- 9 private sector development and public sector management

An appendix is included listing reports and

publications produced by Bank research with corresponding availability sources Abstracts are indexed by the sponsoring unit

Environments of the Poor in Southeast Asia, East Asia and the Pacific Aris Ananta, 2014-11-11 This book provides examples of possible triple win solutions for simultaneously reducing poverty raising the quality of the environment and adapting to climate change The book provides empirical evidence and observations from sixteen case studies in Southeast and East Asia and from the Pacific It argues that a spatial approach focussing on the environments in which the poor and vulnerable live would trigger changes for development policies and implementation that better balance environmental and social concerns In line with the post 2015 Millennium Development Goals MDG and Sustainable Development Goals SDG agenda emphasizing integrated development approaches for the slum poor the upland poor the dryland poor the coastal poor and the flood affected wetland poor would also bring the environment and poverty agenda closer The book emerged from a cooperation of the Asian Development Bank ADB with the Institute of Southeast Asian Studies ISEAS in partnership with experts from research institutes and think tanks in the Asian region

Microfinance and Poverty Alleviation Ben Quinones, Joe Remenyi, 2014-02-04 Despite the considerable economic growth of the Asia Pacific poverty continues to be a major problem One key way to create sustainable livelihoods and to provide poor households an escape route from poverty is microfinance Since the early 1980s microfinance practitioners have proven that the poor are creditworthy capable of utilizing scarce capital efficiently in viable income generating projects and able to pay back their loans This book collects the experience of microfinance practitioners in 11 countries in the Asia Pacific region to describe the present state of the art It is designed to provide an overview of the subject why it is so essential to poverty reduction what is the best practice what kind of policy framework and regulatory environment is required It offers both an extensive survey of the academic literature and a selection of case studies all from authors who have been active practitioners in microfinance for many years The case studies cover four key countries in South Asia and three countries in East Asia in which microfinance had become particularly important There is also a regional chapter covering the Pacific islands

World Bank Research Program World Bank, 2008 **When There Was No Money** Heather A. Clark, 2006-03-14 The challenges in development often seem insurmountable They overwhelm nations and the builders of their most basic institutions I am often asked how development finance agencies can work together to meet this challenge In reply I invite you to read a story about cooperation in rebuilding one of the most basic institutions of any society the banking system KfW Bankengruppe places great emphasis on financial sector development Our experience in our own country and beyond our borders shows that one of the first steps is building a banking system that fuels growth through investment in enterprises Micro small and medium enterprises are the backbone of many economies they are also the wealth of the people and generate their hope in the future We believe that the depth of the financial sector is related to economic growth the growth and safety of deposits the facility of payments and the innovation to develop new products and services that strengthen markets and promote investment A strong banking system

supports economic growth by attracting unproductive capital and injecting it into the economy increasing the productivity of the country's capital base and leveraging it by attracting outside capital
