A Neurolinguistic Theory Of Bilingualism:

A Neurolinguistic Theory of Bilingualism Michel Paradis, 2004-01-01 The relationship between language and thought in bilinguals is examined in the light of evidence from pathology **BOOK JACKET** **A Neurolinguistic Theory of Bilingualism** Michel Paradis, 2004 In addition to its obvious research benefits the clinical and social reasons for assessment of bilingual aphasia with a measuring instrument that is linguistically and culturally equivalent in each of a patient's languages are stressed The relationship between language and thought in bilinguals is examined in the light of evidence from pathology Jacket The Neurolinguistics of Bilingualism Franco Fabbro, 2013-05-24 This book introduces the reader to both neurolinguistics per se and the neuropsychological aspects of bilingualism Neurolinguistics may roughly be defined as a subset of neuropsychology namely the study of the representation and processing of language in the brain To this effect the first chapters of the book focus on the basic neuropsychology of language processing and acquisition The second half of the book addresses the issues of cerebral representation and processing of language in bi or multilingual subjects All aspects are systematically dealt with namely the definition of bilingualism an analysis of all the issues related to bilingual aphasia i e patterns of recovery of the patients various languages in diverse population an investigation of the methodologies used in the study of the neuropsychological aspects of the various linguistic functions such as comprehension production and translation and lastly the issues of cerebral lateralization and neuroanatomical localization of the numerous cortical and subcortical structures subserving the various language system components in multilingual subjects It is an excellent introduction to both the neuropsychology of language and the phenomena related to bilingualism This book will be of particular interest to students of language therapy aphasiology applied psycholinguistics neurolinguistics and in general to students of medicine who wish to become more knowledgeable about the specific needs of patients in a multilingual society **Declarative and Procedural Determinants of Second Languages** Michel Paradis, 2009 This volume is the outcome of the author's observations and puzzlement over seventeen years of teaching English and French as second languages followed by 30 years of research into the neurolinguistic aspects of bilingualism It examines within the framework of a neurolinguistic theory of bilingualism Paradis 2004 the crucial and pervasive contributions made by declarative and procedural memory to the appropriation representation and processing of a second language This requires careful consideration of a number of concepts associated with issues pertaining to second language research consciousness interface modularity automaticity proficiency accuracy fluency intake ultimate attainment switching implicit linguistic competence and explicit metalinguistic knowledge It is informed by data from a variety of domains including language pathology neuroimaging and from each side of the fence practical classroom experience This book introduces four further proposals within the framework of a neurolinguistic theory of bilingualism 1 There are two sets of cerebral representations those that are capable of reaching consciousness and those that are not implicit grammar is inherently not capable of reaching consciousness 2 The increased

activation observed in neuroimaging studies during the use of a second language is not devoted to the processing of implicit linguistic competence 3 Intake is doubly implicit 4 Given the premise that metalinguistic knowledge cannot be converted into implicit competence there can be no possible interface between the two
