Jr., Albert Marcella, Robert S. Greenfield, 2002-01-23 Given our increasing dependency on computing technology in daily business processes and the growing opportunity to use engineering technologies to engage in illegal unauthorized and unethical acts aimed at corporate infrastructure every organization is at risk *Cyber Forensics A Field Manual for Collecting Examining and Preserving Evidence* o *Reconstructing Restorative Justice Philosophy* Theo Gavrielides, Vasso Artinopoulou, 2016-04-08 This book takes bold steps in forming much needed philosophical foundations for restorative justice through deconstructing and reconstructing various models of thinking It challenges current debates through the consideration and integration of various disciplines such as law criminology philosophy and human rights into restorative justice theory resulting in the development of new and stimulating arguments Topics covered include the close relationship and convergence of restorative justice and human rights some of the challenges of engagement with human rights the need for the recognition of the teachings of restorative justice at both the theoretical and the applied level the Aristotelian theory on restorative justice the role of restorative justice in schools and in police practice and a discussion of the humanistic African philosophy of Ubuntu With international contributions from various disciplines and through the use of value based research methods the book deconstructs existing concepts and suggests a new conceptual model for restorative justice This unique book will be of interest to academics researchers policy makers and practitioners **Drugs and Crime** Philip Bean, 2013-05-13 This book is a major contribution to the debate on the nature of the relationship between drugs and crime and provides an authoritative and much needed overview of the range of issues associated with drugs related crime

ICSGS 2019 Muhammad Syaroni Rofii, Adis Imam Munandar, Danial Mohd. Yusof, 2020-11-13 The International Conference on Strategic and Global Studies is organized by the School of Strategic and Global Studies SSGS Universitas Indonesia The ICSGS conference is an annual meeting event involving lecturers students and researchers who are concerned with contemporary national and international issues that are directly related to the problems faced by the government and

the private sector using a multidisciplinary approach Participants of this conference came from the ASEAN region and the global network of the Universitas Indonesia *Ethical and Social Perspectives on Situational Crime Prevention* Andreas von Hirsch,David Garland,Alison Wakefield,2000-11-18 Table of contents *Crime and Technology* Ernesto U. Savona,2004-11-22 Guido Rossi As Chairman of ISPAC I want to thank all the contributors to this book that originates from the International Conference on Crime and Technology This could be the end of my presentation if I did not feel uneasy not considering one of the problems I believe to be pivotal in the relationship between crime and technology I shall also consider that the same relationship exists between terror and globalization while globalization is stemming from technology and terror from crime Transnational terrorism is today made possible by the vast array of communication tools But the paradox is that if globalization facilitates terrorist violence the fight against this war without borders is potentially disastrous for both economic development and globalization Antiterrorist measures restrict mobility and financial flows while new terrorist attacks could lead the way for an antiglobalist reaction But the global society has yet to agree on a common definition of terrorism or on a common policy against it The ordinary traditional criminal law is still depending on the sovereignty of national states while international criminal justice is only a spotty and contested last resort The fragmented and weak international institutions and underdeveloped civil societies have no power to enforce criminal justice against terrorism At the same time the states that are its targets have no interest in applying the laws of war the Geneva Conventions to their fight against terrorists
