A Practical Grammar Of The Central Alaskan Yupik Eskimo Language:

A Practical Grammar of the Central Alaskan Yup'ik Eskimo Language Steven A. Jacobson, 1995-12 **A Practical Grammar of the Central Alaskan Yup'ik Eskimo Language** Steven A. Jacobson, Anna W. Jacobson, 1995 The native language of Eskimo people who live in the coastal and inland regions of the Lower Yukon Kuskokwim and Bristol Bay areas of Southwestern Alaska is presented in this grammar of Central Yup'ik. Written in a clear, concise and readable style, this volume is not only a comprehensive textbook for students but also a complete reference guide. It takes the student from beginning lessons to an advanced grammatical level. It is appropriate for the college and high school levels and for self study. **A practical grammar of the central Alaskan Yup'ik Eskimo language** Steven A. Jacobson, Anna W. Jacobson, 1995 **A Grammar of Central Alaskan Yupik (CAY)** Osahito Miyaoka, 2012-12-06 The volume is a major grammar of Central Alaskan Yupik (CAY). It is the culmination of the author's linguistic studies done in Alaska and elsewhere since around 1960 with assistance of many native speakers. Central Alaskan Yupik is currently the most vigorous of the nineteen remaining Native Alaskan languages. Descriptive in nature, extensive and deep, this grammar is of typological and of ethnological anthropological interest. Given the severely endangered state of the language, this much of descriptive linguistic material is without comparison in the field. **Workbook**, 2019 This book is a companion to *A Practical Grammar of the Central Alaskan Yup'ik Language* by Steven A. Jacobson with *Yup'ik Readings* by Anna W. Jacobson, copyright 1995. Variations on Polysynthesis Marc-Antoine Mahieu, Nicole Tersis, 2009 This work is comprised of a set of papers focussing on the extreme polysynthetic nature of the Eskaleut languages which are spoken over the vast area stretching from Far Eastern Siberia on through the Aleutian Islands, Alaska and Canada as far as Greenland. The aim of the book is to situate the Eskaleut languages typologically in general linguistic terms, particularly with regard to polysynthesis. The degree of variation from more to less polysynthesis is evaluated within Eskaleut, Inuit, Yupik vs Aleut, even in previously insufficiently explored domains such as pragmatics and use in context, including language contact and learning situations and over typologically related language families such as Athabascan, Chukotko-Kamchatkan, Iroquoian, Uralic and Wakashan. **Yup'ik (Central Eskimo) Language Guide (and more!)** Terryl Miller, 2006 The Languages of Native North America Marianne Mithun, 2001-06-07 This book provides an authoritative survey of the several hundred languages indigenous to North America. These languages show tremendous genetic and typological diversity and offer numerous challenges to current linguistic theory. Part I of the book provides an overview of structural features of particular interest, concentrating on those that are cross-linguistically unusual or unusually well developed. These include syllable structure, vowel and consonant harmony, tone and sound symbolism, polysynthesis, the nature of roots and affixes, incorporation and morpheme order, case, grammatical distinctions of number, gender, shape, control, location, means, manner, time, empathy and evidence, and distinctions between nouns and verbs, predicates and arguments, and simple and complex sentences and special speech styles. Part II catalogues the languages by

family listing the location of each language its genetic affiliation number of speakers major published literature and structural highlights Finally there is a catalogue of languages that have evolved in contact situations

The Languages and Linguistics of Northern Asia Edward Vajda, 2024-03-04 The Languages and Linguistics of Northern Asia A Comprehensive Guide surveys the indigenous languages of Asia's North Pacific Rim Siberia and adjacent portions of Inner Eurasia It provides in depth descriptions of every first order family of this vast area with special emphasis on family internal subdivision and dialectal differentiation Individual chapters trace the origins and expansion of the region's widespread pastoral based language groups as well as the microfamilies and isolates spoken by northern Asia's surviving hunter gatherers Separate chapters cover sparsely recorded languages of early Inner Eurasia that defy precise classification and the various pidgins and creoles spread over the region Other chapters investigate the typology of salient linguistic features of the area including vowel harmony noun inflection verb indexing also known as agreement complex morphologies and the syntax of complex predicates Issues relating to genealogical ancestry areal contact and language endangerment receive equal attention With historical connections both to Eurasia's pastoral based empires as well as to ancient population movements into the Americas the steppes taiga forests tundra and coastal fringes of northern Asia offer a complex and fascinating object of linguistic investigation

The Languages and Linguistics of Indigenous North America Carmen Dagostino, Marianne Mithun, Keren Rice, 2023-12-18 This handbook provides broad coverage of the languages indigenous to North America with special focus on typologically interesting features and areal characteristics surveys of current work and topics of particular importance to communities The volume is divided into two major parts subfields of linguistics and family sketches The subfields include those that are customarily addressed in discussions of North American languages sounds and sound structure words sentences as well as many that have received somewhat less attention until recently tone prosody sociolinguistic variation directives information structure discourse meaning language over space and time conversation structure evidentiality pragmatics verbal art first and second language acquisition archives evolving notions of fieldwork Family sketches cover major language families and isolates and highlight topics of special value to communities engaged in work on language maintenance documentation and revitalization
