Where the Weeds Grow Curt Melliger, 2021-06-14 While roaming North America in search of answers Curt Melliger stumbled upon a number of them in the most unlikely of locations and the strangest of situations He learned that gaining access to the ultimate is not possible by taking the safe easy predictable route but rather by walking on the wild side The wild side of life This book is a selection of Curt s essays on subjects ranging from the simplest of all to the most sublime from the wonders of water rock and moonlight to the miracle of existence the mystery of death and the possibility of returning to heaven early It explores ocean desert and mountain places that are not on any map and the unmowed corner of your backyard It examines adrenaline rushes near death experiences and impossible coincidences There are stories about discovering the secret to happiness in the middle of nowhere the heart of the city and small town alleys late at night Moments when time seems to stop moving and when it flies at the speed of light Things that last only for a split second and others that endure forever Looking into the eyes of a wolf and feeling the feathers on a pigeon s back Hearing the call of the wild and responding accordingly For raw pure unadulterated wildness is readily available on this unparalleled planet we inhabit but only if we dare to cut the rope and leave the herd behind Because you see ecstasy lies just beyond the lawn the pavement and the fence It waits for us in the weeds

Chasing Doctor Dolittle Con Slobodchikoff, 2024-03-26 Slobodchikoff s ground breaking research Jonathan Balcombe shows us that animals have much to teach us about language Groundbreaking research has been done teaching animals human language but what about the other way around Studies have shown that lizards squid monkeys and birds are talking to each other communicating information about food predators squabbles and petty jealousies These animal languages are unique and highly adaptive By exploring them we come to appreciate the basis of our own languages understanding or even speaking them allows us to get closer to the other species who inhabit this planet with us The implications of animals having language are enormous It has been one of the last bastions separating us from them Slobodchikoff s studies of the communication system of prairie dogs over twenty five years have attracted a considerable amount of attention from the media including a one hour documentary on his work produced by BBC and Animal Planet In *Chasing Doctor Dolittle* he posits that the difference is one of degree not the vast intellectual chasm that philosophers have talked about for millennia Filled with meticulous research vivid examples and daring conclusions this book will challenge the reader s assumptions and open up new possibilities of understanding our fellow creatures

Dragon Songs Vladimir Dinets, 2013-11-01 A born naturalist and a fearless traveler Vladimir Dinets wrote travel guides conducted field research and lived a couple of lives before he was accepted into the PhD program in zoology at the University of Miami He thought crocodiles were a dead end research topic survivors from the age of the dinosaurs but not much else until he witnessed groups of up to seventy alligators performing mating choruses that included infrasound vibrations a form of communication extremely rare in nature and a dance unknown in the scientific literature but that resembled a scene from Jurassic Park To prove his thesis about the language of crocodiles he spent the next six years traveling around the world on shoestring budgets and in extreme circumstances studying almost every living species At the same time as a man desiring companionship in life he sought love With adventures on five continents Dragon Songs is his account of this quest It includes an escape from a boiling lava lake in the Afar Desert being chased up a tree by a tiger in India hitching a ride with a cocaine smuggler in Bolivia and diving with giant Greenland sharks all in the name of studying crocodiles among which he routinely paddled in his inflatable kayak Of course not everything went according to plan But in the end his ground breaking research helped change the field And during the course of his adventures he met and courted his future wife

Songs of my Father Larsen Bowker, 2023-07-19 Larsen Bowker's three Chapbooks and seven books of poetry take images and metaphors come from a childhood in a small Prairie town in Nebraska with more trees hills and rivers than massive fields of grain and found his narrative style growing up in resilient synchronicity of his parents polar opposite personalities physical vigor of his Father's inventive silence and his Mother's lubricious loquacity making it easy for him to believe all lives grow out of myths and physical images shaping who we are and seek to become Both athlete and poet he believes Faith in Body Mind and Soul forms the character best suited to avoid discipleship to one of the three while our best chance to connect all three to who we are and what we want to become is that elusive mystical charismatic state of being we can never quite define but know for sure when they are in synch as if they were as distinct as the line of our nose in three way mirrors or the memory of our first kiss
