Dear Teen Me E. Kristin Anderson, Miranda Kenneally, 2019-08-01 *Dear Teen Me* includes advice from over 70 YA authors including Lauren Oliver, Ellen Hopkins and Nancy Holder to name a few to their teenage selves The letters cover a wide range of topics including physical abuse, body issues, bullying, friendship, love and enough insecurities to fill an auditorium So pick a page and find out which of your favorite authors had a really bad first kiss Who found true love at 18 Who wishes he'd had more fun in high school instead of studying so hard Some authors write diary entries some write letters and a few graphic novelists turn their stories into visual art And whether you hang out with the theater kids, the band geeks, the bad boys, the loners, the class presidents, the delinquents, the jocks or the nerds you'll find friends and a lot of familiar faces in these pages

Equipping Space Cadets Emily Midkiff, 2022-04-19 Winner of the 2023 Science Fiction Research Association SFRA Book Award 2022 Longlist Nominee for the Best Non Fiction Award from the British Science Fiction Association *Equipping Space Cadets* Primary Science Fiction for Young Children argues for the benefits and potential of primary science fiction or science fiction for children under twelve years old Science fiction for children is often disregarded due to common misconceptions of childhood When children are culturally portrayed as natural and simple they seem like a poor audience for the complex scientific questions brought up by the best science fiction The books and the children who read them tell another story Using three empirical studies and over 350 children's books including *If I Had a Robot Dog*, *Bugs in Space* and *Commander Toad in Space* *Equipping Space Cadets* presents interdisciplinary evidence that science fiction and children are compatible after all Primary science fiction literature includes many high quality books that cleverly utilize the features of children's literature formats in order to fit large science fiction questions into small packages In the best of these books authors make science fiction questions accessible and relevant to children of various reading levels and from diverse backgrounds and identities *Equipping Space Cadets* does not stop with literary analysis but also presents the voices of real children and practitioners The book features three studies: a survey of teachers and librarians, quantitative analysis of lending records from school libraries across the United States and coded read aloud sessions with elementary school students The results reveal how children are interested in and capable of reading science fiction but it is the adults including the most well intentioned librarians and teachers who hinder children's engagement with the genre due to their own preconceptions about the genre and children

Using Content-area Graphic Texts for Learning Meryl Jaffe, Katie Monnin, 2013 What counts as literacy has been redefined in today's classrooms Teachers must address what it means to read and live in a multi-literate world that includes both print text and image text Focused specifically on young adult graphic novels in the four primary content areas: math, language arts, social studies and science *Using Content Area Graphic Texts for Learning: A Guide for Middle Level Educators* by Dr Meryl Jaffe and Dr Katie Monnin empowers twenty-first century middle school educators to not only better

understand content area graphic novels but also teach them Like their print counterparts graphic texts reinforce traditional content area thinking skills like memory attention cognition language learning and sequencing Unlike print texts however comics and graphic novels reach out to diverse types of literacy learners and their particular reading strengths making them the perfect high quality literary level texts for core content area classrooms Using Content Area Graphic Texts for Learning begins with the building blocks of graphic novel terminology 101 moves into a detailed look at how graphic texts specifically help and empower different types of learners and then branches off into specific chapters for each of four content areas math language arts social studies and science Each of these content area chapters includes an overview of how graphic novels help students tackle integrate and enhance content area material two content area lesson plans each utilizing graphic novels in different ways a demonstration of what that lesson plan is asking students to do focusing on five learning skills attention memory language sequencing and cognition and how the lesson aligns with the appropriate content area s Common Core Standards a discussion on how graphic novels help different types of learners succeed in the content area classrooms and a list of suggested graphic novels for each content area classroom Jaffe and Monnin more than make the case for using graphic novels as valid young adult literary texts that engage students and meet Common Core State Standards within the content area classroom
