2011-2012 GRANT APPLICATION GUIDELINES

In order to be considered for a grant from the National Institutes of Health Foundation, the applicant must be a 501(c)(3) not-for-profit organization. The purposes of grants for research and education studies related to the human condition are to promote and advance scientific knowledge through the advancement of research.

The National Institutes of Health Foundation also solicits research proposals from the health-care and education sectors, which are funded through a separate process. These proposals are independently evaluated according to proposal 10, with NIFP's strategic health research priorities, study feasibility and cost, and the applicant's research history for review. Researcher's interest in applying should include a term page proposal summary including the proposed project description, anticipated overall budget, a brief two-year project timeline, and existing resources and facilities for successful project completion. The application for each nation's proposed summary is in Summary 10, 10/10.

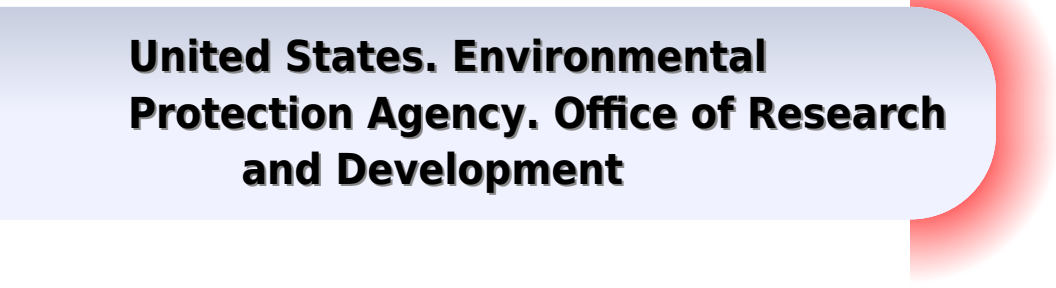

Grant applications in terms of NIFP 10/10 will not be considered. Grant applications will be given priority based on 10 months issued and 10 years. Applications for 10 years and 10 years will be considered. Researcher's ability for funding, equipment, infrastructure, and/or other programs cannot be considered.

Non-profit organizations interested in submitting a grant request to the National Institutes of Health Foundation should contact NIFP Grant Coordinator. There is no official grant award application form. However, grant requests will not be considered without complete documentation as outlined in the NIFP 10/10 Grant Guidelines.

- (1) Master and address of the last change representing organization making application.
- (2) A brief history of the applying organization along with its mission, strategic programs, and facilities, and budget for the current year.
- (3) A list of the current Board of Directors.
