1. Nurses need to be aware of current trends in the health care delivery system in order to respond in educational preparation and practice. A major trend that is influencing nursing practice today is:

|   |                                                  |
|---|--------------------------------------------------|
| 1 | Decreased client acuity                          |
| 2 | Increased hospital stays                         |
| 3 | Decreased emphasis on health promotion           |
| 4 | Increased incidence of chronic disease processes |

ANS: 4

In recent decades, there is a higher incidence of chronic, long-term illness. With shortened hospital stays, client acuity has increased, not decreased.

Hospital stays have decreased, not increased. Lengths of stay have shortened with a trend toward home care, and health promotion and illness prevention.

With increased public awareness and rising health care costs, greater emphasis has been placed on health promotion and illness prevention.
