A Philosophy Of Political Myth:

A Philosophy of Political Myth Chiara Bottici, 2007-07-09 In this book originally published in 2007 Chiara Bottici argues for a philosophical understanding of political myth Bottici demonstrates that myth is a process one of continuous work on a basic narrative pattern that responds to a need for significance Human beings need meaning in order to master the world they live in but they also need significance in order to live in a world that is less indifferent to them This is particularly true in the realm of politics Political myths are narratives through which we orient ourselves and act and feel about our political world Bottici shows that in order to come to terms with contemporary phenomena such as the clash between civilizations we need a Copernican revolution in political philosophy If we want to save reason we need to look at it from the standpoint of myth

A Philosophy of Myth Chiara Bottici, 2014-05-14 In this book Chiara Bottici argues for a philosophical understanding of political myth Bottici shows that myth is a process one of continuous work on a basic narrative pattern that responds to a need for significance Human beings need meaning in order to master the world they live in but they also need significance in order to live in a world that is less indifferent to them This is particularly true in the realm of politics Political myths are narratives through which we orient ourselves and act and feel about our political world Bottici shows that in order to come to terms with contemporary phenomena such as the clash between civilizations we need a Copernican revolution in political philosophy If we want to save reason we need to look at it from the standpoint of myth

A Feminist Mythology Chiara Bottici, 2021-10-21 A Feminist Mythology takes us on a poetic journey through the canonical myths of femininity testing them from the point of view of our modern condition A myth is not an object but rather a process one that Chiara Bottici practises by exploring different variants of the myth of womanhood through first and third person prose and poetry We follow a series of myths that morph into each other disclosing ways of being woman that question inherited patriarchal orders In this metamorphic world story telling is not just a mix of narrative philosophical dialogues and metaphysical theorizing it is a current that traverses all of them by overflowing the boundaries it encounters In doing so A Feminist Mythology proposes an alternative writing style that recovers ancient philosophical and literary traditions from the pre Socratic philosophers and Ovid's *Metamorphoses* to the philosophical novellas and feminist experimental writings of the last century

Plato and the Mythic Tradition in Political Thought Tae-Yeoun Keum, 2020-12-08 Plato's penchant for mythmaking sits uneasily beside his reputation as the inventor of rationalist philosophy Hegel's solution was to ignore the myths Popper thought them disqualifying Tae Yeoun Keum responds by carving out a place for myth in the context of rationalism and shows how Plato's tales inspired history's great political thinkers

The Roots of American Individualism Alex Zakaras, 2024-08-20 A panoramic history of American individualism from its nineteenth century origins to today's bitterly divided politics Individualism is a defining feature of American public life Its influence is pervasive today with liberals and conservatives

alike promising to expand personal freedom and defend individual rights against unwanted intrusion be it from big government big corporations or intolerant majorities The Roots of American Individualism traces the origins of individualist ideas to the turbulent political controversies of the Jacksonian era 1820 1850 and explores their enduring influence on American politics and culture Alex Zakaras plunges readers into the spirited and rancorous political debates of Andrew Jackson s America drawing on the stump speeches newspaper editorials magazine articles and sermons that captivated mass audiences and shaped partisan identities He shows how these debates popularized three powerful myths that celebrated the young nation as an exceptional land of liberty the myth of the independent proprietor the myth of the rights bearer and the myth of the self made man The Roots of American Individualism reveals how generations of politicians pundits and provocateurs have invoked these myths for competing political purposes Time and again the myths were used to determine who would enjoy equal rights and freedoms and who would not They also conjured up heavily idealized apolitical visions of social harmony and boundless opportunity typically centered on the free market that have distorted American political thought to this day

Political Myth Roland Boer, 2009-03-25 A scholar of biblical studies and cultural theory develops a political myth for the Left based on foundational stories in the Bible s first six books from Genesis through Joshua

Marxism and Phenomenology Bryan Smyth, Richard Westerman, 2021-10-25 Marxism and Phenomenology The Dialectical Horizons of Critique edited by Bryan Smyth and Richard Westerman offers new perspectives on the possibility of a philosophical outlook that combines Marxism and phenomenology in the critique of capitalism Although Marxism s focus on impersonal social structures and phenomenology s concern with lived experience can make these traditions appear conceptually incompatible the potential critical force of a theoretical reconciliation inspired several attempts in the twentieth century to articulate a phenomenological Marxism Updating and extending this approach the contributors to this volume identify and develop new and previously overlooked connections between the traditions offering new perspectives on Marx Husserl and Heidegger exploring themes such as alienation reification and ecology and examining the intersection of Marxism and phenomenology in figures such as Michel Henry Walter Benjamin and Frantz Fanon These glimpses of a productive reconciliation of the respective strengths of phenomenology and Marxism offer promising possibilities for illuminating and resolving the increasingly intense social crises of capitalism in the twenty first century

Geopolitics and Poland's Foreign Policy Alicja McGarrigle, 2025-11-25 Geopolitics and Poland s Foreign Policy offers a comprehensive examination of how the Intermarium continues to influence Polish foreign policy The Three Seas Initiative TSI in Eastern Europe was announced in 2016 as a flagship project of Polish diplomacy In this book the author analyses the TSI in the context of the Intermarium and demonstrates its relevance and implications for Polish foreign policy today The book traces the emergence of the Intermarium in Polish foreign policy debates between 2005 and 2021 Through thematic analysis the book identifies three main discourses in which the Intermarium is invoked for different purposes Regional Hegemony the

Bridge and New Paradigm Each of these discourses uses the Intermarium to promote legitimise naturalise or depoliticise different aspects of foreign policy The author also examines how the Intermarium is used as a tool in political competition defining the boundaries of legitimacy for actors in public discourse This book will be a valuable resource for researchers of Eastern European politics EU politics international relations and foreign policy It sheds light on the nuances of foreign policy decisions and political dynamics in Poland as well as providing detailed discussions on the use of the Intermarium concept and the recent TSI policy project

Hans Blumenberg Xander Kirke, 2018-11-02 This book investigates the writings of German intellectual historian and philosopher Hans Blumenberg While Blumenberg was not an explicitly political thinker and remains relatively under explored in Anglophone academia this project demonstrates that his work makes a valuable contribution to political science The author considers the intellectual contributions Blumenberg makes to a variety of themes focusing primarily on myth Rather than seeing myths in a pejorative sense as primitive modes of thought that have been overcome Blumenberg reveals that myths are crucial to dealing with the existential anxieties we face When we trace his thought as it developed throughout his life we find a rich source of philosophical insights that could enhance our understandings of politics today
