A Place Of Healing Working With Nature And Soul At The End:

Place of Healing Michael Kearney, 2009 In this companion volume to *Mortally Wounded Stories of Soul Pain Death and Healing* palliative care specialist Dr Michael Kearney demonstrates that while the medical model has undoubted strengths in easing pain it is limited in its ability to alleviate the psychological and spiritual suffering that often accompanies terminal illness Complementing physical treatment with such depth approaches as dream work poetry divination and a revitalised connection with nature Kearney allows us to begin to integrate scientific and psychological metaphors Through research and imaginative reconstructions of the mythology and rites of ancient Greek Asklepiian healing Kearney helps us envision a way of recognising and caring for the soul in its most critical moments He offers suggestions for workshop activities along with case histories from his own experience He concludes by proposing a new model for the healing of suffering which draws on the best practices of both the medical and Asklepiian traditions *A Place of Healing: Working with Nature & Soul at the End of Life* CONSULTANT IN PALLIATIVE CARE MICHAEL. KEARNEY, 2017-11-13 Dr Michael Kearney demonstrates in this book that while the medical model has undoubted strengths in easing pain it is limited in its ability to alleviate the psychological and spiritual suffering that often accompanies terminal illness Complementing physical treatment with such depth approaches as dreamwork poetry divination and a revitalized connection with nature Kearney a palliative care specialist allows us to begin to integrate scientific and psychological metaphors We may thereby forge a more comprehensive and holistic response to the greatest challenges we all have to face suffering and dying Through imaginative re envisionings of the mythology and rites of ancient Greek Asklepiian healing Kearney helps us discover a way of recognizing and caring for the soul in its most critical moments and proposes a new model for the healing of suffering which draws on the best practices of both the medical and Asklepiian traditions *Songlines of the Soul* Veronica Goodchild, 2012-10-01 The title for this book comes from the ancient Aboriginal concept of song lines pathways to another world reached through dreamtime and visionary insight and encounters with the unknown realm of experience Veronica Goodchild addresses how dreams synchronicities UFO ET encounters Crop Circle mysteries and NDEs all point to the new unfolding vision of reality She draws on ancient mystery traditions to explore how this metamorphosis is already reflected cross culturally in Hopi Aztec Mayan Hindu Tibetan Maori Zulu Dogon and Egyptian cultures *Songlines of the Soul* proposes a new paradigm of reality a new worldview The signatures of this new reality are arising both in our own experiences and all around us if only we can stretch wide our stubbornly held perceptions of what is reality As we stand at a crucial turning point in our human history this book offers hope a call to awaken and expand our perceptions of the fundamental principles that orchestrate reality In an age when the answers offered by governments and traditional religion are no longer sufficient the quest for meaning must as it always has in the past arise first through visions dreams and journeys to other dimensions of consciousness *Nature and Therapy* Martin Jordan, 2014-09-15 Recent decades have seen an increasing interest in the healing and therapeutic potential
