A Poetics Of Homecoming Heidegger Homelessness And The Homecoming Venture:

A Poetics of Homecoming Brendan O'Donoghue, 2011-05-25 This investigation addresses a pressing anxiety of our time that of homelessness Tersely stated the philosophical significance of homelessness in its more modern context can be understood to emerge with Nietzsche and his discourse on nihilism which signals the loss of the highest values hitherto Diverging from Nietzsche Heidegger interprets homelessness as a symptom of the oblivion of being The purpose of the present enquiry is to rigorously confront humanity's state of homelessness and at the same time illumine the extent to which Heidegger's thought engages with this pervasive phenomenon In questioning the nature of homelessness Heidegger's preoccupations with nihilism and modern technology prove crucial Moreover his attempts to overcome or prepare for the overcoming of this state of homelessness are also of great import to the current investigation Adorno and Levinas offer scathing critiques of Heidegger's thought as it relates to the motifs of homelessness homecoming Heimkunft and the German Heimat for they associate it with provincialism paganism and a pernicious form of politics In providing these critiques they bring to light the risks involved in undertaking a homecoming venture and they also show how a great thinker can err greatly While acknowledging the importance of these criticisms the present study reveals how Heidegger's various discourses on homelessness and homecoming bear fruitful insights that can contribute not just to a Germanic sense of homecoming but to a sense of homecoming that humanity at large can relate to and be enriched by Marx and We Sun Zhengyu, 2024-08-01 Marxist ideology is the only fully scientific ideology the only one able to guide mankind toward the settlement of fundamental social problems and to point out the royal road for the proletariat to take in its march toward socialism and communism Without Marxism modern people cannot establish true social ideals nor can they engage in the rational pursuit of values Without Marxism modern people cannot choose the correct path of development nor can they build up new forms of civilizations Without Marxism modern people would never base their commitments to schedule the consensus building effort and support the consensus building process on any irrefutably and sufficiently sound theoretical foundations **"Into Life."**

Franz Rosenzweig on Knowledge, Aesthetics, and Politics, 2021-07-26 The articles collected in *Into Life* Franz Rosenzweig on Knowledge Aesthetics and Politics focus on the significance of Franz Rosenzweig's work far beyond the realms of theology and philosophy of religion They engage with a wide range of issues in philosophy and offer new insights both by presenting an array of unpublished and underestimated sources and by bringing Rosenzweig's thought into dialogue with new approaches and interlocutors such as Stanley Cavell William Alston Carl Schmitt and Martin Heidegger The result is a refreshing and original perspective on the work of one of the most significant thinkers of the twentieth century

Architecture, Culture, and Spirituality Thomas Barrie, Julio Bermudez, Phillip James Tabb, 2016-03-09 Architecture has long been understood as a cultural discipline able to articulate the human condition and lift the human spirit yet the spirituality of architecture is rarely directly addressed in academic scholarship The seventeen chapters provide a diverse

range of perspectives grouped according to topical themes Being in the World Sacred Secular and the Contemporary Condition Symbolic Engagements Sacred Landscapes and Spirituality and the Designed Environment Even though the authors approach the subject from a range of disciplines and theoretical positions all share interests in the need to rediscover redefine or reclaim the sacred in everyday experience scholarly analysis and design

The Homelessness of Being Prashan Ranasinghe, 2025-03-14 The Homelessness of Being invites readers to consider what it means to be human This dialogue between sociology and the early and middle phases of Heidegger's writings argues that to be human is to be homeless This homelessness is not one of materiality of being houseless but one that is ontological the homelessness that constitutes the essence of humanity where one is disconnected from the essence of one's self or being Prashan Ranasinghe theorizes this homelessness as an indeterminate nothingness where the notion of being is unsettled because it is an amalgam of something and nothing More broadly the book adds to existing debates about whether especially after the global pandemic the social sciences have failed to explore everyday affects such as anxiety and boredom as revelatory of the essential homelessness of being human It will interest philosophers sociologists and scholars engaging with Heidegger's ideas At the Existentialist Café Sarah Bakewell, 2016 This book is account of one of the twentieth century's major intellectual movements and the revolutionary thinkers who came to shape it Amazon.com All Religion Is Inter-Religion Kambiz Ghanea-Bassiri, Paul Robertson, 2019-07-11 All Religion Is Inter Religion analyses the ways inter religious relations have contributed both historically and philosophically to the constructions of the category of religion as a distinct subject of study Regarded as contemporary classics Steven M Wasserstrom's Religion after Religion 1999 and Between Muslim and Jew 1995 provided a theoretical reorientation for the study of religion away from hierophanies and ultimacy and toward lived history and deep pluralism This book distills and systematizes this reorientation into nine theses on the study of religion Drawing on these theses and Wasserstrom's opus more generally a distinguished group of his colleagues and former students demonstrate that religions can and must be understood through encounters in real time and space through the complex relations they create and maintain between people and between people and their pasts The book also features an afterword by Wasserstrom himself which poses nine riddles to students of religion based on his personal experiences working on religion at the turn of the twenty first century *Giving Beyond the Gift* Elliot R. Wolfson, 2014-02-03 This book explores the co dependency of monotheism and idolatry by examining the thought of several prominent twentieth century Jewish philosophers Cohen Buber Rosenzweig and Levinas While all of these thinkers were keenly aware of the pitfalls of scriptural theism to differing degrees they each succumbed to the temptation to personify transcendence even as they tried either to circumvent or to restrain it by apophatically purging kataphatic descriptions of the deity Derrida and Wyschogrod by contrast carried the project of denegation one step further embarking on a path that culminated in the aporetic suspension of belief and the consequent removal of all images from God a move that seriously compromises the viability of devotional piety The

inquiry into apophysis transcendence and immanence in these Jewish thinkers is symptomatic of a larger question Recent attempts to harness the apophatic tradition to construct a viable postmodern negative theology a religion without religion are not radical enough Not only are these philosophies of transcendence guilty of a turn to theology that defies the phenomenological presupposition of an immanent phenomenality but they fall short on their own terms inasmuch as they persist in employing metaphorical language that personalizes transcendence and thereby runs the risk of undermining the irreducible alterity and invisibility attributed to the transcendent other The logic of apophysis if permitted to run its course fully would exceed the need to posit some form of transcendence that is not ultimately a facet of immanence Apophatic theologies accordingly must be supplanted by a more far reaching apophysis that surpasses the theolatrous impulse lying coiled at the crux of theism an apophysis of apophysis based on accepting an absolute nothingness to be distinguished from the nothingness of an absolute that does not signify the unknowable One but rather the manifold that is the pleromatic abyss at being's core Hence the much celebrated metaphor of the gift must give way to the more neutral and less theologically charged notion of an unconditional givenness in which the distinction between giver and given collapses To think givenness in its most elemental phenomenological sense is to allow the apparent to appear as given without presuming a causal agency that would turn that given into a gift

House and Home Thomas Barrie, 2017-03-16 House and home are words routinely used to describe where and how one lives This book challenges predominant definitions and argues that domesticity fundamentally satisfies the human need to create and inhabit a defined place in the world Consequently house and home have performed numerous cultural and ontological roles and have been assiduously represented in scripture literature art and philosophy This book presents how the search for home in an unpredictable world led people to create myths about the origins of architecture houses for their gods and house tombs for eternal life Turning to more recent topics it discusses how writers often used simple huts as a means to address the essentials of existence modernist architects envisioned the capacity of house and home to improve society and the suburban house was positioned as a superior setting for culture and family Throughout the book house and home are critically examined to illustrate the perennial role and capacity of architecture to articulate the human condition position it more meaningfully in the world and assist in our collective homecoming

The Duplicity of Philosophy's Shadow Elliot R. Wolfson, 2018-04-24 Martin Heidegger 1889-1976 is considered one of the most influential philosophers of the twentieth century in spite of his well known transgressions his complicity with National Socialism and his inability to show remorse or compassion for its victims In *The Duplicity of Philosophy's Shadow* Elliot R. Wolfson intervenes in a debate that has seen much attention in scholarly and popular media from a unique perspective as a scholar of Jewish mysticism and philosophy who has been profoundly influenced by Heidegger's work Wolfson sets out to probe Heidegger's writings to expose what remains unthought In spite of Heidegger's explicit anti-Semitic statements Wolfson reveals some crucial aspects of his thinking including criticism of the biological racism and militant apocalypticism

of Nazism that betray an affinity with dimensions of Jewish thought the triangulation of the concepts of homeland language and peoplehood Jewish messianism and the notion of historical time as the return of the same that is always different inclusion exclusion and the status of the other the problem of evil in kabbalistic symbolism Using Heidegger's own methods Wolfson reflects on the inextricable link of truth and untruth and investigates the matter of silence and the limits of speech He challenges the tendency to bifurcate the relationship of the political and the philosophical in Heidegger's thought but parts company with those who write off Heidegger as a Nazi ideologue Ultimately *The Duplicity of Philosophy's Shadow* argues the greatness and relevance of Heidegger's work is that he presents us with the opportunity to think the unthinkable as part of our communal destiny as historical beings
