A Practice Of Ethics For Global Politics Ethical Reflexivity New International Relations:

A Practice of Ethics for Global Politics Jack L. Amoureux, 2014 **A Practice of Ethics for Global Politics** Jack L. Amoureux, 2015-10-05 What kind of ethics in world politics is possible if there is no foundation for moral knowledge or global reality is at least complex and contingent Furthermore how can an ethics grapple with difference a persistent and confounding feature for global politics This book responds to the call for a bold and creative approach to ethics that avoids assuming or aspiring to universality and instead prioritizes difference complexity and uncertainty by turning to reflexivity not as method or methodology but as a practice of ethics for politics This practice ethical reflexivity offers individuals organizations and communities tools to recognize interrogate and potentially change the stories they tell about politics about constraints notions of responsibility and visions of desirability The benefits and limits of ethical reflexivity are investigated by the author who engages writing on critique rhetoric affect and relationality and carefully considers dominant and alternative framings of difficult issues in International Relations IR the 1994 genocide in Rwanda and the US policies of enhanced interrogation and drone strikes This path breaking study provokes new possibilities for agency and action and contributes to a growing literature in IR on reflexivity by uniquely elaborating its promise as an ethics for politics and by drawing on thinkers less utilized in discussions of reflexivity such as Hannah Arendt Michel Foucault and Aristotle This book will appeal to scholars and upper level graduates in several sub fields of IR including international global ethics IR theory global governance international organizations non governmental organizations foreign policy analysis and US foreign policy

Reflexivity and International Relations Jack L Amoureux, Brent J. Steele, 2015-09-25 Reflexivity has become a common term in IR scholarship with a variety of uses and meanings Yet for such an important concept and referent understandings of reflexivity have been more assumed rather than developed by those who use it from realists and constructivists to feminists and post structuralists This volume seeks to provide the first overview of reflexivity in international relations theory offering students and scholars a text that provides a comprehensive and systematic overview of the current reflexivity literature develops important insights into how reflexivity can play a broader role in IR theory pushes reflexivity in new productive directions and offers more nuanced and concrete specifications of reflexivity moves reflexivity beyond the scholar and the scholarly field to political practice Formulates practices of reflexivity Drawing together the work of many of the key scholars in the field into one volume this work will be essential reading for all students of international relations theory

International Relations and the Problem of Time Andrew R. Hom, 2020-05-26 What is time and how does it influence our knowledge of international politics For decades International Relations IR paid little explicit attention to time Recently this began to change as a range of scholars took an interest in the temporal dimensions of politics Yet IR still has not fully addressed the issue of why time matters in international politics nor has it reflected on its own use of time how temporal ideas affect the way we work to understand political phenomena Moreover IR remains beholden to two seemingly

contradictory visions of time the time of the clock and a longstanding tradition treating time as a problem to be solved International Relations and the Problem of Time develops a unique response to these interconnected puzzles It reconstructs IR s temporal imagination by developing an argument that all times from natural rhythms to individual temporal experience spring from social and practical timing activities or efforts to establish meaningful and useful relationships in complex and dynamic settings In IR s case across a surprisingly wide range of approaches scholars employ narrative timing techniques to make sense of confounding processes and events This innovative account of time provides a more systematic and rigorous explanation for time in international politics It also develops provocative insights about IR s own history its key methodological commitments supposedly timeless statistical methods historical institutions and the critical vanguard of time studies This book invites us to reimagine time and in so doing to significantly rethink the way we approach the analysis of international politics

The Politics of Globality since 1945 Rens van Munster,Casper Sylvest,2016-05-12 This timely comprehensive and interdisciplinary volume advances an original argument about the complex roots and multiple politics of globality It shows that technological innovations and decisive developments since 1945 from the nuclear revolution to anthropogenic climate change and debates about the Anthropocene have prompted reflections on the global condition of humanity and helped reshape political communities by making the world appear small manageable and interconnected The contributors stress how human beings have transformed both their habitat and their view of human earth relations since 1945 Such changes have been accompanied by important shifts in political visions prompted new forms of human association encouraged legal and institutional reform and spurred ideas about ecological humility At the same time the spatially all encompassing nature of globality have also informed projects of human mastery and a range of practices historically associated with militarization and a strongly statist conception of national security This volume reflects on these paradoxical relationships their history and contemporary relevance Contributing to the overlapping concerns of four burgeoning fields of study across the humanities and the social sciences globality and globalization studies geopolitics and political geography Anthropocene studies global governance and political theory the book will be of great use to scholars and graduates working in these areas

Security Without Weapons M. S. Wallace,2016-09-13 Few questions of global politics are more pressing than how to respond to widespread violence against civilians Despite the efforts of Responsibility to Protect R2P proponents to draw attention away from exclusively military responses debates on humanitarian intervention and R2P s Third Pillar still tend to boil down to two unsatisfying options stand by and do nothing or take military action to protect civilians essentially using violence to stop violence Accordingly and given disagreement and uncertainty regarding moral claims as well as the unpredictability of military effectiveness this book asks how can we counter violence ethically and effectively taking action consistent with our particular moral commitments while also nurturing difference and enacting responsibility towards multiple others After evaluating the pragmatic and ethical failings of military action the book proposes nonviolent

intervention as a third unarmed on the ground option for protecting civilians during humanitarian crises In the empirical section of the book focusing on the discursive and psychological conditions enabling violence Wallace analyses the mechanisms by which Nonviolent Peaceforce an international NGO engaged in nonviolent intervention unarmed civilian peacekeeping UCP was able to protect civilians and prevent violence even if on a limited scale in the broader context of Sri Lanka s war counterinsurgency in 2008 Both philosophically innovative and practically useful to those working in the field the book contributes to a range of literatures and debates from just war theory and poststructuralist ethics to nonviolent action and conflict transformation and from humanitarian intervention R2P and civilian protection to strategic theory and discursive and psychological theories of violence

The New Constructivism in International Relations Theory David M. McCourt,2023-06-13 Tracing constructivist work on culture identity and norms within the historical geographical and professional contexts of world politics this book makes the case for new constructivist approaches to international relations scholarship

The Oxford Handbook of Time and Politics Klaus Goetz,2024 The Oxford Handbook on Time and Politics is the first major publication that surveys time centered research in political science across its sub disciplines As such it integrates and consolidates an emergent body of knowledge but also aims to inspire future scholarship The Handbook highlights that paying systematic attention to time in political analysis yields questions and insights that are of relevance to a very broad range of political scientists working within different theoretical methodological and epistemological traditions The Handbook covers comparative politics and government public policy international relations and political theory Its authors are drawn from more than a dozen countries

To Shape Our World for Good C. William Walldorf, Jr.,2019-06-15 Why does the United States pursue robust military invasions to change some foreign regimes but not others Conventional accounts focus on geopolitics or elite ideology C William Walldorf Jr argues that the politics surrounding two broad public narratives the liberal narrative and the restraint narrative often play a vital role in shaping US decisions whether to pursue robust and forceful regime change Using current sociological work on cultural trauma Walldorf explains how master narratives strengthen and weaken and he develops clear predictions for how and when these narratives will shape policy To Shape Our World For Good demonstrates the importance and explanatory power of the master narrative argument using a sophisticated combination of methods quantitative analysis and eight cases in the postwar period that include Korea Vietnam and El Salvador during the Cold War and more recent cases in Iraq and Libya The case studies provide the environment for a critical assessment of the connections among the politics of master narratives pluralism and the common good in contemporary US foreign policy and grand strategy Walldorf adds new insight to our understanding of US expansionism and cautions against the dangers of misusing popular narratives for short term political gains a practice all too common both past and present

The Politics of International Political Theory Mathias Albert,Anthony F. Lang Jr.,2018-08-13 This book assesses the impact of the work of Chris Brown in the field of International Political Theory The volume engages with general

issues of IPT as well as basic issues such as the use and role of practical reasoning and presents a nuanced understanding about issues regarding the legitimacy of war and violence It explores questions that pertain to human rights morality and ethics and generally an outlook for devising a better world The project is ideal for audiences with interest in International Relations Ethics and Morality Studies and International Political Theory
