A Mixture Of Buddhism Taoism And Confucianism:

Managers and Management in Vietnam Vincent Edwards, Anh Phan, 2013-01-17 This book presents a comprehensive overview of managers and management in Vietnam based on extensive original research including interviews with a large number of managers in Vietnam It shows how management in Vietnam is best understood from the perspective of Vietnamese managers themselves rather than in terms of Western or Asian models of management It discusses the range of enterprises in the Vietnamese economy which until 1986 was dominated by large state owned enterprises and Soviet style central economic planning and where there is now a much greater variety with a mix of privatised state owned enterprises foreign owned companies joint ventures and a very large number of relatively small private companies all operating in a social market economy where Party ideology emphasises a balance between economic growth and workers rights The book demonstrates how the tensions arising from this economic landscape are reflected in the views and actions of managers as they balance economic and social goals in their work and how their activities are constrained further by the enduring influence of local culture which is not always amenable to imported ideas and methods As many managers have worked in different kinds of companies the book also reveals a great deal about management in different contexts and also about how companies have changed as the reform process has evolved

Richard Wright Writing America at Home and from Abroad Virginia Whatley Smith, 2016-06-27 Contributions by Robert J Butler Ginevra Geraci Yoshinobu Hakutani Floyd W Hayes III Joseph Keith Toru Kiuchi John Lowe Sachi Nakachi Virginia Whatley Smith and John Zheng Critics in this volume reassess the prescient nature of Richard Wright's mind as well as his life and body of writings especially those directly concerned with America and its racial dynamics This edited collection offers new readings and understandings of the particular America that became Wright's focus at the beginning of his career and was still prominent in his mind at the end Virginia Whatley Smith's edited collection examines Wright's fixation with America at home and from abroad his oppression by rejection of conflict with revolts against and flight from America Other people have written on Wright's revolutionary heroes his difficulties with the FBI and his works as a postcolonial provocateur but none have focused singly on his treatment of America Wherever Wright traveled he always positioned himself as an African American as he compared his experiences to those at hand However as his domestic settlements changed to international residences Wright's craftsmanship changed as well To convey his cultural message Wright created characters themes and plots that would expose arbitrary and whimsical American policies oppressive rules which would invariably ensnare Wright's protagonists and sink them more deeply into the quagmire of racial subjugation as they grasped for a fleeting moment of freedom Smith's collection brings to the fore new ways of looking at Wright particularly his post Native Son international writings Indeed no critical interrogations have considered the full significance of Wright's masterful crime fictions In addition the author's haiku poetry complements the fictional pieces addressed here reflecting Wright's attitude toward America as he near the end of his life searched for nirvana his antidote to

American racism The Chinese Recorder and Missionary Journal ,1902 **Fighting Corruption in Asia** John Kidd, Frank-Jürgen Richter, 2003 Fundamental changes within economies are needed to create arm s length relations between governments corporations and banks We are taking risks when investing in the future and risk taking demands openness and truthfulness from the agents we employ If investors and accountants can concur on the degree of disclosure that is morally right we may come to some global agreement on what constitutes corruption but to do this we have to bring together those who advocate profit making with those who see this as usury and we have to care for the future in novel ways unknown in the past so as to allow firms to be locally inefficient apparently while preserving the environment This book looks widely at the prevailing situation in Asia and considers how little some governments are doing to guide their institutions towards probity and transparency While fundamental changes are needed around the globe it is in the developing nations that there is scope for radical change in the near future as their institutions are re created to meet the modern world Once developed and functioning their managers will have the opportunity to facilitate and re direct the institutions in the developed world which happen to be more conservative than their own Ethnocultural Perspectives on Disaster and Trauma Anthony J. Marsella, Jeanette L. Johnson, Patricia Watson, Jan Gryczynski, 2007-11-26 Crises do not occur in cultural vacuums but help often does Good intentions are not enough Lack of cultural understanding sensitivity and competencies can hamper and even harm the professional response to disasters To help and heal one must know and understand the cultural background of disaster victims Ethnocultural Perspectives on Disaster and Trauma offers readers substantive knowledge in these three vital areas of disaster response In this pioneering volume experts on individual and collective trauma experience posttraumatic stress and related syndromes and emergency and crisis intervention share knowledge and insights on the cultural context of working with ethnic and racial minority communities during disasters In each chapter emotional psychological and social needs as well as communal strengths and coping skills that arise in disasters are documented for major minority groups in the United States including specific chapters on African Americans Native Americans Arab Americans Asian Indians Chinese Americans Caribbean Americans Latin Americans Native Hawaiians and Vietnamese Americans Each chapter features information on Demographics major historical events and core values of each population Important cultural insights including communication styles culture specific disorders and valid assessment instruments Therapeutic and healing traditions versus conventional medicine and therapy Perspectives specific to the population s experience with disaster and trauma Authors recommendations for improving services to the population Practical appendices for readers new to the field This unique volume is a cultural competency compendium that will increase to the effectiveness of all who respond to disasters It will also be of interest and value to scholars policy makers and health professionals working in the areas of disaster management crisis intervention and trauma Ethnocultural Perspectives on Disaster and Trauma points readers to what the editors call the path beyond simple assistance to healing and the restoration of hope and meaning Companion to
