A Philosophy Of Emptiness

Lars Svendsen

A Philosophy Of Emptiness:

A Philosophy of Emptiness Gay Watson, 2014-03-15 We often view emptiness as a negative condition a symptom of depression despair or grief an assessment furthered by authors like Franz Kafka or the existentialists Jean Paul Sartre and Albert Camus Offering an alternative view A Philosophy of Emptiness reclaims these hollow feelings as a positive and even empowering state an antidote to the modern obsession with substance and foundation Digging through early and non Western philosophy Gay Watson uncovers a rich history of emptiness She travels from Buddhism Taoism and religious mysticism to the contemporary world of philosophy science and art practice Though most Western philosophies are concerned with substance and foundation she finds that the twentieth century has seen a resurgence of emptiness and offers reasons why such an apparently unappealing concept has attracted modern musicians artists and scientists as well as preeminent thinkers throughout the ages Probing the idea of how a life without foundation might be lived and why a person might choose this path A Philosophy of Emptiness links these concepts to contemporary ideas of meditation and the mind presenting a rich and intriguing take on the concept of emptiness and the history of thought

Emptiness Appraised

David F. Burton, 2001-01-01 Emptiness means that all entities are empty of or lack inherent existence entities have a merely conceptual constructed existence Though Nagarjuna advocates the Middle Way his philosophy of emptiness nevertheless entails nihilism and his critiques of the Nyaya theory of knowledge are shown to be unconvincing

Exploring the

Structure of Emptiness Mathew Varghese, 2012-12-01 Nagarjuna is one of the finest philosophers who ever lived This second century Buddhist philosopher from south India is known for his criticism on speculative theories and viewpoints But his name is better known for introducing the idea of emptiness sunyata a philosophical concept that had hugely influenced the discourses of Eastern philosophy religion and culture for about 2000 years Nagarjuna cleverly introduced emptiness sunyata into Buddhist discourses to explain its central philosophy the philosophy of Middle Path Through the negative mode of argumentation he taught how we naturally get trapped into extreme viewpoints and speculate on them His philosophy of Middle Path Madhyamika explains the progress of human reasoning moving in its natural course avoiding extreme viewpoints for finding harmony and freedom During the second century in a different milieu Nagarjuna warned his students about the dangers of speculative thought created out of extreme viewpoints and philosophical doctrines He taught them to look into the structures of such doctrines critically by using negation to know what the truth is Therefore the philosophical idea of emptiness sunyata is not the end of negation assuming perfect nihilism but teaching us that it would work like medicine for removing all our ignorance More precisely it is like zero sunya in mathematics a number with an undefined value but real numbers find newer values by associating with it It is a philosophical tool that helps us control our alleged fears anger petty hatred etc by invoking the natural course of human compassion karuna for us to live and die naturally Therefore the structure of emptiness is the philosophy of Middle Path

Nothingness in Asian Philosophy Jeeloo

Liu, Douglas Berger, 2014-06-13 A variety of crucial and still most relevant ideas about nothingness or emptiness have gained profound philosophical prominence in the history and development of a number of South and East Asian traditions including in Buddhism Daoism Neo Confucianism Hinduism Korean philosophy and the Japanese Kyoto School These traditions share the insight that in order to explain both the great mysteries and mundane facts about our experience ideas of nothingness must play a primary role This collection of essays brings together the work of twenty of the world's prominent scholars of Hindu Buddhist Daoist Neo Confucian Japanese and Korean thought to illuminate fascinating philosophical conceptualizations of nothingness in both classical and modern Asian traditions The unique collection offers new work from accomplished scholars and provides a coherent panoramic view of the most significant ways that nothingness plays crucial roles in Asian philosophy It includes both traditional and contemporary formulations sometimes putting Asian traditions into dialogue with one another and sometimes with classical and modern Western thought The result is a book of immense value for students and researchers in Asian and comparative philosophy Chapter 20 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

The Emptiness of Emptiness C. W. Huntington, Namgyal Wangchen, 1995-01-01 The Emptiness of Emptiness presents the first English translation of the complete text of the Madhyamakavatī Entry into the Middle Way a sixth century Sanskrit Buddhist composition that was widely studied in Tibet and presumably in its native India as well In his lengthy introduction to the translation Huntington offers a judiciously crafted highly original discussion of the central philosophy of Mahāyāna Buddhism He lays out the principal ideas of emptiness and dependent origination not as abstract philosophical concepts but rather as powerful tools for restructuring the nature of human experience at the most fundamental level Drawing on a variety of Indian and Western sources both ancient and modern Huntington gradually leads the reader toward an understanding of how it is that sophisticated philosophical thinking can serve as a means for breaking down attachment to any idea opinion or belief All of this on the Buddhist premise that habitual unreflective identification with ideas opinions or beliefs compromises our appreciation of the ungraspable miracle that lies at the heart of everyday conventional reality The author shows how the spiritual path of the bodhisattva works to transform the individual personality from a knot of clinging into a vehicle for the expression of profound wisdom prajñā and unconditional love karuṇā

Introduction to Emptiness Guy Newland, 2008 Readers are hard pressed to find books that can help them understand the central concept in Mahayana Buddhism the idea that ultimate reality is emptiness In clear language Introduction to Emptiness explains that emptiness is not a mystical sort of nothingness but a specific truth that can and must be understood through calm and careful reflection Newland's contemporary examples and vivid anecdotes will be helpful to students trying to understand one of the great classic texts of the Tibetan tradition Tsongkhapa's Great Treatise [A Philosophy of Boredom](#) Lars Svendsen, 2005-04-15 An account of boredom something that we have all suffered from yet actually know very
