Stålsett, 2023-06-26 Vulnerability is at the core of the political drama of our time Countering conventional approaches this book presents human vulnerability as a source of political community and a potential for political agency in precarity Analyzing Christian celebrations of Christmas and Easter in contexts of struggle it shows how religious resources inspire precarious politics Combining critical political theory liberation theology and lived religion Sturla J St lsett sees in such celebrations a political sacralization of vulnerability and a dispossession of divinity **Political Theology on Edge** Clayton Crockett, Catherine Keller, 2021-12-07 In Political Theology on Edge the discourse of political theology is seen as situated on an edge that is on the edge of a world that is grappling with global warming a brutal form of neoliberal capitalism protests against racism and police brutality and the COVID 19 pandemic This edge is also a form of eschatology that forces us to imagine new ways of being religious and political in our cohabitation of a fragile and shared planet Each of the essays in this volume attends to how climate change and our ecological crises intersect and interact with more traditional themes of political theology While the tradition of political theology is often associated with philosophical responses to the work of Carl Schmitt and the critical attempts to disengage religion from his rightwing politics the contributors to this volume are informed by Schmitt but not limited to his perspectives They engage and transform political theology from the standpoint of climate change the politics of race and non Christian political theologies including Islam and Sikhism Important themes include the Anthropocene ecology capitalism sovereignty Black Lives Matter affect theory continental philosophy destruction and suicide This book features world renowned scholars and emerging voices that together open up the tradition of political theology to new ideas and new ways of thinking Contributors Gil Anidjar Balbinder Singh Bhogal J Kameron Carter William E Connolly Kelly Brown Douglas Seth Gaiters Lisa Gasson Gardner Winfred Goodwin Lawrence Hillis Mehmet Karabela Michael Northcott Austin Roberts No lle Vahanian Larry L Welborn Systematic Theology and Climate Change Michael S. Northcott, Peter M. Scott, 2014-06-05 This book offers the first comprehensive systematic theological reflection on arguably the most serious issue facing humanity and other creatures today Responding to climate change is often left to scientists

policy makers and activists but what understanding does theology have to offer In this collection the authors demonstrate that there is vital cultural and intellectual work for theologians to perform in responding to climate science and in commending a habitable way forward Written from a range of denominations and traditions yet with ecumenical intent the authors explore key Christian doctrines and engage with some of the profound issues raised by climate change Key questions considered include What may be said about the goodness of creation in the face of anthropogenic climate change And how does theology handle a projected future without the human The volume provides students and scholars with fascinating theological insight into the complexity of climate change

Political Theology of the Earth Catherine Keller, 2018-10-30 Amid melting glaciers rising waters and spreading droughts Earth has ceased to tolerate our pretense of mastery over it But how can we confront climate change when political crises keep exploding in the present Noted ecotheologian and feminist philosopher of religion Catherine Keller reads the feedback loop of political and ecological depredation as secularized apocalypse Carl Schmitt's political theology of the sovereign exception sheds light on present ideological warfare racial ethnic economic and sexual conflict and hubristic anthropocentrism If the politics of exceptionalism are theological in origin she asks should we not enlist the world's religious communities as part of the resistance Keller calls for dissolving the opposition between the religious and the secular in favor of a broad planetary movement for social and ecological justice When we are confronted by populist authoritarian right wings founded on white male Christian supremacy we can counter with a messianically charged often unspoken theology of the now moment calling for a complex new public Such a political theology of the earth activates the world's entangled populations joined in solidarity and committed to revolutionary solutions to the entwined crises of the Anthropocene
