# A Preface To Morals 1929

**A Gutmann**

## **A Preface To Morals 1929:**

**A Preface To Morals** Walter Lippmann, **Walter Lippmann** Tom Arnold-Forster, 2025-06-03 The life and ideas of one of the twentieth century's leading political thinkers Walter Lippmann 1889 1974 was among the most influential and wide ranging political writers in modern America As both a journalist and political theorist he shaped ideas about liberalism and democracy the nature of public opinion US power and empire and the roles of journalists experts and citizens Tom Arnold Forster provides a bold historical reassessment of Lippmann's intellectual life offering fresh perspectives on a career at the intersection of daily news and democratic theory This incisive book shows how Lippmann helped define the public debates of American liberalism from the Progressive Era to the Cold War By exploring his ideas in their historical context Arnold Forster challenges the claim that Lippmann was primarily a theorist of expertise and technocracy Instead Lippmann emerges as a strikingly political thinker public facing and multifarious who focused on what politics meant and how it worked in modern democracies Covering subjects from press freedom to urban reform to economic and foreign policy while tracing the evolution from his early liberal socialism to later conservative liberalism this book explores Lippmann's thought as reflecting the protean character of liberal politics and the crises and paradoxes of democracy Walter Lippmann An Intellectual Biography is a richly historical account of a complex political thinker Lippmann's ideas played a formative role in the twentieth century and resonate powerfully with our fraught present Walter Lippmann Mark Thomas Edwards, 2023-05-12 Walter Lippmann was arguably the most recognized and respected political journalist of the twentieth century His Today and Tomorrow columns attracted a global readership of well over ten million Lippmann was the author of numerous books including the best selling A Preface to Morals 1929 and U S Foreign Policy 1943 His Public Opinion 1922 remains a classic text within American political philosophy and media studies Lippmann coined or popularized several keywords of the twentieth century including stereotype the Cold War and the Great Society Sought out by U S Presidents and by America's allies and rivals around the world Lippmann remained one of liberalism's most faithful proponents and harshest critics Yet few people then or since encountered the real Walter Lippmann That was because he kept crucial parts of himself hiding in plain sight His extensive commentary on politics and diplomacy was bounded by his sense that America had to adjust to the loss of a common faith and morality in a post Christian era Over the course of his life Lippmann traded in his fame as a happy secularist for the stardom of a grumpy Western Christian intellectual Yet he never committed himself to any religious system especially his own Jewish heritage Walter Lippmann American Skeptic American Pastor considers the role of religions in Lippmann's life and thought prioritizing his affirmation and rejection of Christian nationalisms of the left and right It also yields fresh insights into the philosophical origins of modern American liberalism including liberalism's blind spots in the areas of sex race and class But most importantly this biography highlights the constructive power of doubt For Lippmann the good life in the good society was lived in irreconcilable tension the struggle to be free from yet loyal to a way of life to

recognize the dangers yet also necessity of a civil religion and to strive for a just and enduring world order that can never be. In the end Lippmann manufactured himself as the prophet of limitation for an extravagant American Century. **A Preface to Morals** Bernard J. Paris, 2017-07-05 After an eloquent and moving analysis of what he sees as the disillusion of the modern age Lippmann posits as the central dilemma of liberalism its inability to find an appropriate substitute for the older forms of authority church state class family law custom that it has denied Lippmann attempts to find a way out of this chaos through the acceptance of a higher humanism and a way of life inspired by the ideal of disinterestedness in all things In his new introduction to the Transaction edition John Patrick Diggins marks *A Preface to Morals* originally published in 1929 as a critical turning point in Lippmann's intellectual career He also provides an excellent discussion of the enduring value of this major twentieth century work by situating it within the context of other intellectual movements. **The Open Shelf**, 1929

*John Dewey* Steven Rockefeller, 1994-03-01 Combining biography and intellectual history Steven Rockefeller offers an illuminating introduction to the philosophy of John Dewey with special emphasis on the evolution of the religious faith and moral vision at the heart of his thought This study pays particular attention to Dewey's radical democratic reconstruction of Christianity and his many contributions to the American tradition of spiritual democracy Rockefeller presents the first full exploration of Dewey's religious thought including its mystical dimension Covering Dewey's entire intellectual life the author provides a clear introduction to Dewey's early neo Hegelian idealism as well as to his later naturalistic metaphysics epistemology theory of education theory of evaluation and philosophy of religion The author tells the story of the evolution of this faith and philosophical vision offering fresh insight into the enduring value of the thought of America's foremost philosopher. **Democracy's Troubles** John E. Miller, 2020-01-14 Evidence is accumulating that democracy is under siege in the United States and around the world This volume identifies and explains a dozen separate challenges threatening American democracy today Sorting these challenges into political and social cultural problems each is placed in an historical context to describe how they work together to undermine the democratic underpinnings of the nation Opening with a sketch of the historical development of democracy this book makes the case for improved civic education rebuilding trust in institutions and leaders promoting good character and the revitalization of the healthy community A renewed commitment to governmental institutions is necessary for the people to fulfill democracy's promise. **The Temptations of Evolutionary Ethics** Paul Lawrence Farber, 1994-10-11 Evolutionary theory tells us about our biological past can it also guide us to a moral future Paul Farber's compelling book describes a century old philosophical hope held by many biologists anthropologists psychologists and social thinkers that universal ethical and social imperatives are built into human nature and can be discovered through knowledge of evolutionary theory Farber describes three upsurges of enthusiasm for evolutionary ethics The first came in the early years of mid nineteenth century evolutionary theories the second in the 1920s and 30s in the years after the cultural catastrophe of World War I and the third arrived with the recent grand claims of sociobiology to offer a

sound biological basis for a theory of human culture Unlike many who have written on evolutionary ethics Farber considers the responses made by philosophers over the years He maintains that their devastating criticisms have been forgotten thus the history of evolutionary ethics is essentially one of oft repeated philosophical mistakes Historians scientists social scientists and anyone concerned about the elusive basis of selflessness altruism and morality will welcome Farber's enlightening book

**The Character of God** Thomas E. Jenkins, 1997 Jenkins urges a reassessment of their work and a greater understanding of the relationship between theology and literature

**BOOK JACKET On Literature, Culture, and Religion** Irving Babbitt, 2017-07-05 Irving Babbitt was a giant of American criticism His writings from the 1890s to the 1930s helped advance American criticism and scholarship to international esteem More than seventy years after his death his intellectual staying power remains undiminished On Literature Culture and Religion is an ideal introduction to this seminal American thinker Babbitt's opinions were uncompromising and his vocal allies and opponents included almost every name in American literature and scholarship T S Eliot Edmund Wilson Paul Elmer More H L Mencken and Sinclair Lewis A founder of New Humanism Babbitt was best known for his indictment of Romanticism and his insistence that the modern age had gone wrong Babbitt argued for a renewal of humanistic values and standards which he found best articulated in classical Greece Hinduism and Buddhism The selections cover topics central to Babbitt criticism Romanticism classical literature French literature education democracy and Buddhism They typify Babbitt's method recondite allusion penetrating insight and analysis impeccable scholarship and unrelenting pursuit of the furthest ramification and the profoundest implication The original annotation is retained Brief introductions to the essays place them in the Babbitt canon A major introductory essay by George A Panichas surveys Babbitt's career and critical reception and summarizes the concepts that inform Babbitt's writing Panichas raises again controversial issues that were not really resolved in Babbitt's time The essay will challenge those long familiar with Babbitt and New Humanism and those newly introduced thereto

## Decoding **A Preface To Morals 1929**: Revealing the Captivating Potential of Verbal Expression

In a time characterized by interconnectedness and an insatiable thirst for knowledge, the captivating potential of verbal expression has emerged as a formidable force.
