## **A Road Back From Schizophrenia A Memoir:**

A Road Back from Schizophrenia Arnhild Lauveng, 2012-11-13 For ten years Arnhild Lauveng suffered as a schizophrenic going in and out of the hospital for months or even a year at a time A Road Back from Schizophrenia gives extraordinary insight into the logic and life of a schizophrenic Lauveng illuminates her loss of identity her sense of being controlled from the outside and her relationship to the voices she heard and her sometimes terrifying hallucinations Painful recollections of moments of humiliation inflicted by thoughtless medical professionals are juxtaposed with Lauveng's own understanding of how such patients are outwardly irrational and often violent She paints a surreal world sometimes full of terror and sometimes of beauty in which the Captain rules her by the rod and the school's corridors are filled with wolves When she was diagnosed with the mental illness it was emphasized that this was a congenital disease and that she would have to live with it for the rest of her life Today however she calls herself a former schizophrenic has stopped taking medication for the illness and currently works as a clinical psychologist Lauveng though sometimes critical of mental health care ultimately attributes her slow journey back to health to the dedicated medical staff who took the time to talk to her and who saw her as a person simply diagnosed with an illness not the illness incarnate A powerful memoir for sufferers their families and the professionals who care for them

**Humanizing Mental Illness** Abigail Gosselin, 2021-08-15 Mental illness stigma is rooted in a perceived lack of agency but stigma itself undermines agency While most philosophical accounts of the matter are concerned with the question of how much agency a person with mental illness has this book asks how we can enhance the agency of people with mental illness Humanizing Mental Illness explains and explores these connections arguing that all of us can and should adjust our social practices to enhance the agency of people with mental illness This agency is complicated and nuanced as it is often directly constrained due to a person's symptoms and indirectly constrained due to stigma Abigail Gosselin both a scholar in the field of social philosophy and a person with a psychiatric disability illustrates the importance of social interaction for developing and exercising agency By overcoming mental illness stigma and by adopting certain epistemic and moral virtues we can interact with people who have mental illness in ways that help enhance their agency and enable them to flourish Humanizing Mental Illness demonstrates that we need to challenge our explicit and implicit biases and learn to interact with mental illness in more intentional supportive and inclusive ways
