Bimal Kanti Paul

At Risk Natural Hazards Peoples Vulnerability And Disasters:

At Risk Piers M. Blaikie, 1994 Examines the significance of the human factor which is as much of a cause of disasters as the natural environment Practical and policy conclusions are drawn with a view to disaster reduction and the promotion of safer environments

At Risk Piers Blaikie, Terry Cannon, Ian Davis, Ben Wisner, 2005-08-18 Examines the significance of the human factor which is as much of a cause of disasters as the natural environment Practical and policy conclusions are drawn with a view to disaster reduction and the promotion of safer environments

At Risk Piers Blaikie, Terry Cannon, Jan Davis, Ben Wisner, 1994

RISK21 - Coping with Risks due to Natural Hazards in the 21st Century Walter J. Ammann, Stefanie Dannenmann, Laurent Vulliet, 2006-08-17 Over the last two decades there has been an increase in the number of natural hazards which have culminated in catastrophic consequences severely impacting on people and livelihoods In response to this escalation the Swiss Natural Hazards Competence Centre CENAT organized a workshop entitled RISK21 at the Centro Stefano Franscini Mon

Building safer cities Alcira Kreimer, Margaret Arnold, Anne Carlin, 2003

The Democracy Disadvantage Brian K. Grodsky, 2024-02-02 Populists are conventionally maligned as impediments to effective policymaking They tend to undermine state institutions exercise personalistic rule and offer simplistic solutions to complex societal problems But is populism always a hindrance to good governance In this book Brian Grodsky argues that the interplay between populism and regime type can upend expected levels of political responsiveness based on regime considerations alone The result can be a reversal of the so called democratic advantage according to which public accountability in democratic regimes drives action beyond what is typically expected under authoritarianism Grodsky explores the government policy response to the COVID 19 pandemic in three populist states the United States a democracy China a non democracy and Russia a hybrid regime This insightful exploratory analysis is essential reading for students and scholars of comparative politics populism and disaster management

Environmental Hazards and Disasters Bimal Kanti Paul, 2011-11-30 Environmental Hazards and Disasters Contexts Perspectives and Management focuses on manifested threats to humans and their welfare as a result of natural disasters The book uses an integrative approach to address socio cultural political and physical components of the disaster process Human and social vulnerability as well as risk to environmental hazards are explored within the comprehensive context of diverse natural hazards and disasters In addition to scientific explanations of disastrous occurrences people and governments of hazard prone countries often have their own interpretations for why natural disasters occur In such interpretations they often either blame others in order to conceal their inability to protect themselves or they blame themselves attributing the events to either real or imagined misdeeds The book contains a chapter devoted to the neglected topic of such reactions and explanations Includes chapters on key topics such as the application of GIS in hazard studies resiliency disasters and poverty climate change and sustainability and development This book is designed as a primary text for an interdisciplinary course on hazards for upper level undergraduate

and Graduate students Although not targeted for an introductory hazards course students in such a course may find it very useful as well Additionally emergency managers planners and both public and private organizations involved in disaster response and mitigation could benefit from this book along with hazard researchers It not only includes traditional and popular hazard topics e g disaster cycles disaster relief and risk and vulnerability it also includes neglected topics such as the positive impacts of disasters disaster myths and different accounts of disasters and disasters and gender **Koenig and Schultz's Disaster Medicine** Kristi L. Koenig, Carl H. Schultz, 2016-02-16 As societies become more complex and interconnected the global risk for catastrophic disasters is increasing Demand for expertise to mitigate the human suffering and damage these events cause is also high A new field of disaster medicine is emerging offering innovative approaches to optimize disaster management Much of the information needed to create the foundation for this growing specialty is not objectively described or is scattered among multiple different sources This definitive work brings together a coherent and comprehensive collection of scientific observations and evidence based recommendations with expert contributors from around the globe This book identifies essential subject matter clarifies nomenclature and outlines necessary areas of proficiency for healthcare professionals handling mass casualty crises It also describes in depth strategies for the rapid diagnosis and treatment of victims suffering from blast injuries or exposure to chemical biological and radiological agents

Hazards, Risks, and Disasters in Society Andrew E. Collins, Jones Samantha, Bernard Manyena, Janaka Jayawickrama, 2014-11-21 Hazards Risks and Disasters in Society provides analyses of environmentally related catastrophes within society in historical political and economic contexts Personal and corporate culture mediates how people may become more vulnerable or resilient to hazard exposure Societies that strengthen themselves or are strengthened mitigate decline and resultant further exposure to what are largely human induced risks of environmental social and economic degradation This book outlines why it is important to explore in more depth the relationships between environmental hazards risk and disasters in society It presents challenges presented by mainstream and non mainstream approaches to the human side of disaster studies By hazard categories this book includes critical processes and outcomes that significantly disrupt human wellbeing over brief or long time frames Whilst hazards risks and disasters impact society individuals groups institutions and organisations offset the effects by becoming strong healthy resilient caring and creative Innovations can arise from social organisation in times of crisis This volume includes much of use to practitioners and policy makers needing to address both prevention and response activities Notably as people better engage prevalent hazards and risks they exercise a process that has become known as disaster risk reduction DRR In a context of climatic risks this is also indicative of climate change adaptation CCA Ultimately it represents the quest for development of sustainable environmental and societal futures Throughout the book cases studies are derived from the world of hazards risks and disasters in society Includes sections on prevention of and response to hazards risks and disasters Provides case studies of prominent societal challenges of hazards

risks and disasters Innovative approaches to dealing with disaster drawing from multiple disciplines and sectors **Cities at Risk** Professor Gary Sands, Professor Pierre Filion, Professor Mark Skidmore, 2015-11-28 How do cities prepare for and recover from natural disasters In this book the authors provide a broad overview of the issues related to the impacts of disasters on cities around the world from assessing risks to accounting for damages The comparative approach across different types of disasters in a range of urban locations is useful in identifying opportunities for policy transfer While there is no one size fits all solution to hazard mitigation valuable lessons can be learned from the experiences of others The chapters emphasize different modes for assessing hazard risk as well as strategies for increasing the resiliency of vulnerable populations
