The Price of Wealth Kiren Aziz Chaudhry, 2015-05-01 The emerging consensus that institutions shape political and economic outcomes has produced few theories of institutional change and no defensible theory of institutional origination Kiren Aziz Chaudhry shows how state and market institutions are created and transformed in Saudi Arabia and Yemen two countries that typify labor and oil exporters in the developing worlds In a world where the international economy dramatically affects domestic developments the question of where institutions come from becomes at once more urgent and more complex In both Saudi Arabia and Yemen fundamental state and market institutions forged during a period of isolation at the end of World War I were destroyed and reshaped not once but three times in response to exogenous shocks Comparing boom bust cycles Chaudhry exposes the alternating social and organizational origins of institutions arguing that both broad changes in the international economy and specific forms of international integration shape institutional outcomes Labor and oil exporters thus experience identical economic cycles but generate radically different state market and financial institutions in response to different resource flows Chaudhry supplemented years of field work in Saudi Arabia and Yemen with extensive analysis of previously unavailable materials in the Saudi national archives **King Faisal of Saudi Arabia** Alexei Vassiliev, 2013-03-01 In 1964 Faisal bin Abdul Aziz became king of a country holding a quarter of the world's oil reserves also home to Mecca and Medina He was called the most powerful Arab ruler in centuries Eleven years later in front of television cameras his nephew shot him at point blank range In this authoritative biography Alexei Vassiliev tells the story of a pious cautious and resolute leader who steered Saudi Arabia through a minefield of domestic problems inter Arab relations and the decline of Soviet influence in the Middle East King Faisal maintained ties with both Egypt and the United States through two

Arab Israeli wars and the 1973 Arab oil embargo which revolutionized the world energy market Throughout he staked high hopes on cooperation with the US a relationship that is still vital to both countries interests Exhaustively researched and including original documents and interviews in Arabic Russian and English King Faisal of Saudi Arabia Personality Faith and Times offers a unique perspective of this seminal figure and is key to understanding the Arab world today
