Even in the immensely complex world of surgery a simple ninety second variant has cut the rate of fatalities by more than a third In riveting stories Gawande takes us from Austria where an emergency checklist saved a drowning victim who had spent half an hour underwater to Michigan where a cleanliness checklist in intensive care units virtually eliminated a type of deadly hospital infection He explains how checklists actually work to prompt striking and immediate improvements And he follows the checklist revolution into fields well beyond medicine from disaster response to investment banking skyscraper construction and businesses of all kinds An intellectual adventure in which lives are lost and saved and one simple idea makes a tremendous difference The Checklist Manifesto is essential reading for anyone working to get things right
