A World Of Bracelets:

A World of Bracelets Anne van Cutsem, Mauro Magliani, Lynn Levenberg, 2002 The Ghysels collection of ethnic jewellery is one of the world's largest and most comprehensive. It is the culmination of a passionate quest of over forty years for aesthetic beauty and authenticity. As such, it represents an invaluable repository of research, taste and discernment. We enthusiastically pursue our journey through the twists and turns of the Ghysels' wealth of adornments. After having explored the universe of rings and earrings in two prior books in this series, we now have the pleasure of discovering the universe of bracelets. These mainly unpublished bracelets, about 1200 of them, have been chosen piece by piece with great love and exquisite taste. They form a group of exceptional quality that displays a great variety of forms. Just as with rings and earrings, bracelets and anklets punctuate the phases of one's life. Small rings which tinkle with the least movement preserve children from evil spirits in the Near East. All self-respecting Jewish brides from Sana'a wear several pairs of bracelets with gossamer filigree. In order to ensure abundant progeny, a Bengal bride will be given a bracelet made from a shell. A flat ivory bracelet rewards a Sudanese elephant hunter of the Dinka tribe for his bravery. And when undertaking their final journey, both men and women surround themselves one last time with bracelets such as the jade ones found in Chinese tombs. The author guides us on a continent-by-continent tour, explaining the historic and cultural contexts in which these ethnic bracelets originated. Captions inform us of materials, dimensions, and uses. A glossary of technical terms, maps, and an index round off the descriptive information. **BOOK JACKET Title Summary** field provided by Blackwell North America Inc. All Rights Reserved.

A World Scientific Encyclopedia Of Business Storytelling, Set 2: Methodologies And Big Data Analysis Of Business Storytelling (In 5 Volumes), 2023-10-13 This set of multi-reference works is meant to be read together as the five volumes interlace one another like the laces of a shoe in the famous painting by Vincent van Gogh. The question of who will wear the shoes is long debated in art history and philosophy. If we take these five volumes from different points of view on the theory and practice of business storytelling, then we have a crisscrossing a new and impressive dialogue for the reader. This set is presented as a new way to lace up the laces of business storytelling. Volume 1 aims to help and inspire leaders, business owners, and researchers in creating a commitment to ethical and sustainable changes and ideas and live in a world of high complexity without getting stressed but experiencing freedom instead. The book combines tools, case studies, and theories about the ethical change management method of True Storytelling and other perspectives and views on ethics and storytelling. It delves into important topics such as true storytelling, sustainability, and freedom storytelling and start-ups in the health industry, storytelling and diversity, and culture storytelling and teams, storytelling, sustainability, and the UN Goals, storytelling and well-being storytelling in higher education, and storytelling and fundraising. Book authors are experienced and successful researchers, business owners, leaders, and consultants from Scandinavia, the USA, Africa, and Europe. Volume 2 is an endeavor into the creation of new concepts for engaging with sustainability. It maintains that storytelling is important.

for our emplacement in nature and can be important for enacting another relationship between nature and the cultural artifice our social and material constructions of houses cities villages harbors streets and railways and our use of objects and artifacts to construct our lives Business storytelling communication is that space for social symbolic work that brings the symbolic objects of the organization the human and the natural environment into a dialogical relationship Volume 3 posits that organizations are arranged as social symbols that are arranged in institutions based on the needs of organics for example health food shelter mating leisure and labor Organics as a social symbolic object specifically humans have emotions language and culture to organize their institutions and organizations In this book readers will find that many of the authors attempt to understand the body s exclusion or attempt to bring the body back into the organization Business storytelling communication takes aim at the social symbolic work of making space to negotiate the social arrangement of organizations with its organic components Volume 4 covers a variety of methodological topics from a storytelling perspective Why a storytelling perspective Consider that a common business research goal is to convince others that what the researcher has to say matters If the researcher is a basic researcher who wishes to promote a theory the goal is to make a convincing case for the value of that theory If the researcher is an applied researcher who wishes to promote a particular application intervention or policy change the goal is likewise to make a convincing case Either way the researcher has a story to tell and the onus is on the researcher to tell the best possible story storytelling failures likely will result in a failure to convince others of the value of one s theory or application Here is where methodological issues come into play Poor methodology whether in the form of less than optimal study designs or invalid statistical analyses harms story quality In contrast high quality methods and statistics enhance story quality Moreover the larger one s methodological and statistical toolbox the greater the opportunities for researchers to tell effective stories The chapters in this book come from a wide variety of perspectives and should enhance researchers storytelling in the following ways By opening many different methodological and statistical perspectives researchers should be more able to think of research stories that otherwise would remain unavailable or inaccessible Secondly the present chapters should aid researchers in better executing their research stories Therefore researchers and graduate students will find this book an invaluable resource Volume 5 opens a window into the world of quantum storytelling as an organizational research methodology providing numerous exemplars of work in this storytelling science that has disrupted qualitative inquiry only with the intention of providing expanded improved and generative ways of understanding and knowing the narratives that emerge from qualitative interviews and observations during organizational research studies

The Oxford Handbook of the Merovingian World Bonnie Effros, Isabel Moreira, 2020 The Merovingian world has become more visible in Anglophone historical studies in the past two decades as attention to the social and economic networks of empires and modes of communication has begun to change older frameworks that viewed these centuries in terms of decline and characterized them as the Dark Ages The Merovingian epoch witnessed something which we understand from the perspective of hindsight a tilt to the middle ages The forty six essays included in this volume thus highlight the vitality and importance of the Merovingian kingdoms in the fifth through eighth centuries Rather than suggest that this was a chaotic and obscure interlude between the Fall of the Roman Empire and the Rise of the Carolingians and named for a dynasty with a reputation for few accomplishments and even fewer memorable kings the essays demonstrate

that the Merovingian era is an important field in its own right The Handbook s contributors highlight recent research that moves beyond the political developments that were until recently the bread and butter of most historians and include many contributions based on material culture that shed new light on subjects that previously were inaccessible They demonstrate that the Merovingian world was at the center of a wide ranging Merovingian empire of elites peasants economies and cultures and its story must be told through archaeology bio archaeology architecture hagiographic literature manuscripts liturgy visionary literature and eschatology patristics numismatics and material culture In addition to mainland France the essays encompass the geographic conduits of power culture and trade that connected the Merovingian world with Anglo Saxon England Ireland Frisia Spain Italy North Africa and the Byzantine Empire This network empire of intersecting and often conflicting identities political interests religions economies patronage and cultures were intrinsically connected to contemporary developments not just among the Burgundians and Visigoths but among the Byzantines Avars Anglo Saxons Frisians and the Irish fields that were once viewed like the Merovingians themselves in isolation These important developments reveal why the Merovingian period has attracted new audiences and why it will never be viewed as a backwater again
