

AVEVA VPRM 9.6

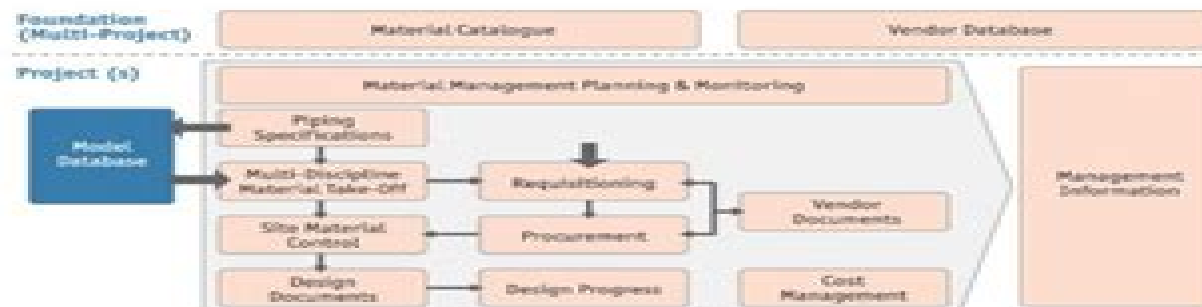

Managing projects faster, better, more economically

Executing an engineering project is a complex process. It involves workflows that require the collaboration of many participants: the client, various engineering disciplines, procurement and construction personnel, vendors and subcontractors. Vast quantities of technical, financial and administrative data are generated during the life of a project. This data is created and shared across many locations that are often separated by considerable distances and time zones.

AVEVA VPRM is an integrated engineering IT solution suite that supports all phases of the process plant engineering workflow. From engineering design and specification, through 3D layout to procurement, materials management and project control, VPRM provides unrivalled data integrity, within a framework of applications which is flexible enough to meet the diverse requirements of users. It can also integrate with other engineering solutions, many analysis packages, business systems and CAD engines.

VPRM facilitates the management of risk, improves the quality of execution, reduces costs and provides project control throughout the life of a project. VPRM helps to ensure that:

- The right materials are delivered to the right place, at the right time.
- The right documents are issued at the right time, to the right person.
- Progress and costs are accurately monitored.
- Management decisions are based on up-to-date, accurate and timely data.
- Coherent historical data is available for use when bidding for new projects.
- Accurate and detailed data can be extracted for management reporting.

Mapping of major business areas and AVEVA VPRM functionality

Business Benefits

- Comprehensive report writing capabilities allow for information to be readily available to enable fast, well-informed management decisions.
- Accurate management of resources means reduced waste, optimal ordering lead times, control of schedule, all providing reductions in time and cost.
- Consistent and controlled documents improve project quality and reduce man-hours by getting the project right first time.
- VPRM's architecture with a Web interface allows for exceptional collaboration across multi-location project teams, enabling more efficient global working.
- Sophisticated interaction with the AVEVA PDMS 3D plant design system and the AVEVA VPE engineering database system saves time and cost on projects, by ensuring that material management activities are consistent with the engineering specification.
- Fast implementation. VPRM's preloaded templates, together with the highly-experienced AVEVA support team, allow you to quickly implement VPRM fully or in part, integrating it with your existing systems and processes.
