Awakening Ashley Sharon Ruben, 2010-11-01 At eighteen months Ashley Ruben still didn't talk She wouldn't respond when her name was called she didn't appear to hear either She fixated on tiny pieces of dirt and ate only crunchy foods She was enveloped in a thick fog impenetrable by everyone except Barney the Dinosaur She worked puzzles like a kindergartener and was computer savvy before she was two years old Her mother's late night searches on the Internet hinted at a reason for her lack of engagement with the outside world And then a developmental specialist confirmed it autism a diagnosis that shook the foundation of a family and shattered a mother's world Ashley could hear but she couldn't listen In order to address that a therapy retraining her ears to perceive sound better took her back to the time in the womb where listening begins With the help of specialized recordings of Mozart's music Ashley gradually awakened Her brain's desire to communicate was kindled fostering a connection with her body her family and the world around her Ashley had recovered developing the ability to talk to listen to communicate to become an engaging child But how could Sharon Ruben a clinical researcher in her own right convince the skeptics without clinical trial data to prove the effectiveness of this therapy She didn't need data She had Ashley all the proof she needed Listen Up This remarkable story is for every person with a child waiting to be awakened to language and communication Don Campbell Author of The Mozart Effect and The Mozart Effect for Children
