has been enormous thousands of Latin Americans have been murdered disappeared or tortured and whole communities have been terrorized into silence Organized by region the essays in this book address the topic of state sponsored terrorism in a variety of ways Most take the perspective that state directed political violence is a modern development of a regional political structure in which U S political interests weigh heavily Others acknowledge that Latin American states enthusiastically received U S support for their campaigns of terror A few see local culture and history as key factors in the implementation of state campaigns of political violence Together all the essays exemplify how technologies of terror have been transferred among various Latin American countries with particular attention to the role that the United States as a strong state has played in such transfers Advocacy Coalitions and Democratizing Media Reforms in Latin America Christof
