American Patriotism Putnam P. Bishop, 2017-09-18 Excerpt from *American Patriotism An Essay* It is evident that the emergence of patriotism in the young heart presupposes the intellectual conception of a country distinguished from all other countries and the apprehension of this distinctive relation to it Hence the growth and character of the affection depend very largely on intellectual development The conception may come far short of embracing all the territory and population subject to a common government A clan a tribe or a race with the limited area inhabited by it or a section whose people have exclusive interests and traditions in common may completely fill out the mental picture of one's country and in this case the reach of the affection will be correspondingly restricted Still in all such cases we have a territory and a population to which the individual is joyously conscious of a possessory relation and the structurally necessitated affection which responds to this consciousness About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Patriotic Essays (Classic Reprint) Elroy Headley,2017-10-16 Excerpt from Patriotic Essays I AM more and more impressed with the need of Business good will in this Republic When we consider that only one business enterprise out of ten meets success admit that the man who enters upon an independent career has nerve and the man who succeeds has both luck and ability It is an element of patriotism to reverence the successful business men of America and Our Nation must request and heed the advice and admonitions of men experienced in affairs I do not confuse Producers with the hordes of money lenders and speculators who consider it a business to prey upon business The business men are the great Captains of Industry of America the great Organizers and Common Carriers the manufacturers the farmers and masters of commercial activity Let us extend to every such leader congratulations for business success and never begrudge the reward for useful service About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **Manhood and Patriotic Awakening in the American Civil War** Robert Bruce Donald,2008-04-07 It has been over sixty years since the first book that tried to explain the life and lot of the common soldier in the American Civil War was published Since Bell Wiley's Life of Johnny Reb 1943 there have been many thousands of pages devoted to the troops and the social history underlying the conflict of the Civil War Within that historical record one question still captivates and provokes why did they fight John E Mattoon was certainly one such common soldier aside from his uncommonly interesting and expressive letters This book constitutes a valuable case study illuminating the motives

experiences and ultimate realizations of a young cavalry volunteer The exploration of John s personal motivations and the actions of his peers adds further clarity to our body of knowledge which may force us to reassess some preconceived notions about the prototypical Union soldier Scholarly research adds historical context to provide colorful depth and flesh to a developing interpretation of John s experiences A refreshing approach to an old conflict students teachers and anyone interested in the personal side of war will benefit from the firsthand glimpse of Manhood and Patriotic Awakening *Stories of Nation* Christopher Hebert, Martin Griffin, 2024-01-12 Throughout American history there has been an oddly close relationship between the seductive appeals of narrative fiction and those of political rhetoric and advocacy The aim of *Stories of Nation Fictions Politics and the American Experience* is to explore what political narratives and the cultural poetics behind them reveal about the way our personal and intimate lives are deeply connected with the public arena and the political process The first section of the book *The Politics of Fictions* contains essays focused on works of fiction consciously dramatizing the political realm The second group of contributions *The Fictions of Politics* explores structures and motifs from the narrative arts in discourses of American political life and the interactions of public institutions and policy with forms of fictional representation from novels to popular music and TV drama The essays presented here broaden the conversation in American literary studies about what constitutes the political in literature and culture by reintroducing the dimension of institutional or representative politics Likewise *Stories of Nation* aims to repair the lines of communication between the idea that all fiction is political and the view that political speech is a subgenre of literature all the more in need of examination in a highly polarized society The range of perspectives in *Stories of Nation* will engage students of literature popular culture and politics alike MARTIN GRIFFIN is an associate professor in the Department of English at the University of Tennessee He is the author of *Ashes of the Mind War and Memory in Northern Literature 1865 1900 2009* and co author with Constance DeVereaux of *Narrative Identity and the Map of Cultural Policy Once Upon a Time in a Globalized World 2013* CHRISTOPHER HEBERT is an assistant professor in the Department of English at the University of Tennessee and is former senior acquisitions editor at the University of Michigan Press He is the author of the novels *Angels of Detroit 2016* and *The Boiling Season 2012* *Nobody's Home* Arnold Weinstein, 1993-03-11 *Nobody s Home* is a bold view of the American novel from its beginnings to the contemporary scene Focusing on some of the deepest instincts of American life and culture individual liberty freedom of speech constructing a life Arnold Weinstein brilliantly sketches the remarkable career of the American self in some of the major works of the past one hundred fifty years Weinstein contends that American writers are haunted by the twin specters of the self as a mirage as *Nobody* and by the brutal forces of culture and ideology that deny selfhood to people on the basis of money sex and color of skin His central thesis is that language makes possible freedoms and accomplishments that are achievable in no other realm and that American fiction is a fascinating record of the human fight against coercion of the kinds of maneuvering room that we may find in life and in art This study is unique in several

respects it offers some of the keenest readings of major American texts that have ever been written including some of the most significant works of the past decades and it fashions a rich and supple view of the American novel as a writerly form of freedom in sharp contrast to today's critical emphasis on blindness and co-optation **Guide to Reprints**, 2008
