Caitlyn Jenner Carla Mooney, 2016-07-15 Countless media outlets reported it 2015 was the year of identity And by and large Caitlyn Jenner was a central figure in forging that dialogue When she revealed her gender identity as a trans woman Jenner shocked the public with her frankness bringing awareness of transgender rights into the public spotlight This biography tracks the life of one of America s most beloved athletes and television personalities putting emphasis on her role as a celebrity advocate for transgender individuals Sidebars highlight other celebrity figures who paved the way for Jenner and cover important topics such as language sensitivity and transgender suicide rates Metanoia Adam

Ellwanger, 2020-02-25 Western culture is in a moment when wholly new kinds of personal transformations are possible but authentic transformation requires both personal testimony and public recognition In this book Adam Ellwanger takes a distinctly rhetorical approach to analyzing how the personal and the public relate to an individual s transformation and develops a new vocabulary that enables a critical assessment of the concept of authenticity The concept of metanoia is central to this project Charting the history of metanoia from its original use in the classical tradition to its adoption by early Christians as a term for religious conversion Ellwanger shows that metanoia involves a change within a person that results in a truer version of him or herself a change in character or ethos He then applies this theory to our contemporary moment finding that metanoia provides unique insight into modern forms of self transformation Drawing on ancient and medieval sources including Thucydides Plato Paul the Apostle and Augustine as well as contemporary discourses of self transformation such as the public testimonies of Caitlyn Jenner and Rachel Dolezal Ellwanger elucidates the role of language in signifying and authenticating identity Timely and original Ellwanger s study formulates a transhistorical theory of personal transformation that will be of interest to scholars working in social theory philosophy rhetoric and the history of Christianity

Masculinity from the Inside Bruce Fleming, 2022-09-29 Rejecting the vocabulary and presuppositions common in Western talk about men this book considers the ways in which men see speak about and understand themselves Based on the author s experience of teaching young men at a military academy and drawing on a range of theory it identifies a disconnect between academic discourses on masculinity based as these are on theoretical positions that describe the world from a position of outsidership and the reality of most men s experience or the way in which men see themselves With an erroneous view of men dominating the airwaves most men simply fail to engage leaving the mistaken conceptions of masculinity to
