Maintenance Manual and Instruction Book for Motorcycle Bsa M20 Bsa Limited, 2009 Complete Factory Handbook for the BSA Model B20 500 c c BSA M20, M21 and M33 'Service Sheets' 1945-1963 for All Rigid, Spring Frame, Girder and Telescopic Fork Models Floyd Clymer, 2021-07-25 172 pgs more than 240 illustrations and charts size 8 25 x 10 75 In 1945 after the war had ended BSA resumed production of their civilian line of motorcycles However they continued their pre war practice of publishing repair overhaul and technical information in the form of individual Service Sheets These sheets were dealer only publications and as such the print quality was somewhat questionable It was not until the early 60 s that BSA eventually started publishing model specific workshop manuals that were available to the general public Consequently these Service Sheets were the only publications available for the maintenance and repair of BSA models from 1945 through the mid 60 s At some point in the 1930 s BSA began identifying their various model types by groups and the models manufactured from 1945 through the mid 60 s were in Groups A B C D and M The service sheets were identified numerically and while there are some exceptions the numbers relate to a particular model group They are as follows The 200 series of service sheets were applicable to Group A models the 300 series to Group B the 400 series to Group C the 500 series to Group D and the 600 series to Group M Also there was a 700 series applicable to mechanical maintenance and an 800 series for electronic service and wiring diagrams Both the 700 and 800 series of service sheets contained information that was not model specific but was applicable across multiple model groups Unfortunately as these service sheets were issued individually and at random times the numbering sequence within a group is at times illogical and not necessarily consecutive Consequently assembling those individual sheets into a publication that serves as a model specific workshop manual is a somewhat difficult task and owners of BSA motorcycles are subjected to considerable confusion surrounding the appropriate selection from the multitude of reprints that have recently flooded the on line marketplace Many of the reprints found on internet websites are from bedroom sellers at enticingly low prices by individuals that really have no idea what they are selling Many are nothing more than poor quality comb bound photocopies that are scanned and printed complete with greasy pages and thumbprints and are deceptively described as pre owned used or even refurbished In addition they are often advertised for the incorrect series and or model years of motorcycles The most complete compilation of the 1945 and onwards service sheets was a BSA dealer only ring binder that contained all of the individual service sheets totaling to almost 500 pages This manual contains 51 service sheets 169 pgs and includes 14 sheets 62 pgs from that dealer only publication plus the 37 service sheets 107 pgs that were published by BSA under part number 00 4021 It covers the S V and O H V rigid spring frame girder and telescoping fork M20 M21 and M33 models from 1945 63 Obviously as the M20 and M21 were introduced in 1937 this manual will also be of use to owners of those earlier models Please note that service sheets other than those in the 600 series that are included in this publication may also contain data that is applicable to other model
