A World of Art Henry M. Sayre, 2012-06-25 This is the eBook of the printed book and may not include any media website access codes or print supplements that may come packaged with the bound book Provide your students with an introduction to art that is inclusive and emphasizes critical thinking Henry Sayre's art appreciation text *The World of Art* is an amazing introduction to the world of art Students with little background in the arts routinely reach out to Henry to share how the text has influenced their lives This is so meaningful because Henry's inspiration for *A World of Art* was his own students His students wanted to see themselves reflected in their textbook Henry decided to write an art appreciation textbook that represented all artists not just the Western canon found at that time in the other texts He also created a text that fostered critical thinking through looking at talking about and questioning works of art for his students The result was *A World of Art* and the new seventh edition continues to build on those two themes coverage of contemporary global art and a strong critical thinking framework throughout the text

A World Art History and Its Objects David Carrier, 2008-11-28 Is writing a world art history possible Does the history of art as such even exist outside the Western tradition Is it possible to consider the history of art in a way that is not fundamentally Eurocentric In this highly readable and provocative book David Carrier a philosopher and art historian does not attempt to write a world art history himself Rather he asks the question of how an art history of all cultures could be written or whether it is even possible to do so He also engages the political and moral issues raised by the idea of a multicultural art history Focusing on a consideration of intersecting artistic traditions Carrier negotiates the way meaning and understanding shift or are altered when a visual object from one culture for example is inserted into the visual tradition of another culture *A World Art History and Its Objects* proposes the use of temporal narrative as a way to begin to understand a multicultural art history

World of Art Sayre, Sayre, April, 1997 A World History of Art Hugh Honour, John Fleming, 2005 Over two decades this art historical tour de force has consistently proved the classic introduction to humanity's artistic heritage From our paleolithic past to our digitised present every continent and culture is covered in an articulate and well balanced discussion In this Seventh Edition the text has been revised to embrace developments in archaeology and art historical research while the renowned contemporary art historian Michael Archer has greatly expanded the discussion of the past twenty years providing a new perspective on the latest developments The insight elegance and fluency that the authors bring to their text are complemented by 1458 superb illustrations half of which are now in colour These images together with the numerous maps and architectural plans have been chosen to represent the most significant chronological regional and individual styles of artistic expression

Can Art History be Made Global? Monica Juneja, 2023-03-20 The book responds to the challenge of the global turn in the humanities from the perspective of art history A global art history it argues need not follow the logic of economic globalization nor seek to bring the entire world into its fold Instead it draws on a theory of transculturation to explore key moments of an art history that can no longer be

approached through a facile globalism How can art historical analysis theorize relationships of connectivity that have characterized cultures and regions across distances How can it meaningfully handle issues of commensurability or its absence among cultures By shifting the focus of enquiry to South Asia the five meditations that make up this book seek to translate intellectual insights of experiences beyond Euro America into globally intelligible analyses
