Astrology And Cosmology In The Worlds Religions:

Astrology and Cosmology in the World's Religions Nicholas Campion, 2012-06-11 Almost every religion uses some form of astrology some way of thinking about the sun moon stars and planets and how they hold significance for human lives on earth Astrology and Cosmology in the World's Religions offers an accessible overview of the astrologies of the world's religions placing them into context within theories of how the wider universe came into being and operates Back cover

Astrology and Cosmology in the World's Religions Nicholas Campion, 2023-11-21 An ambitious examination of cosmologies and astrologies from around the world The diversity of cultures Campion includes is impressive Jacqueline Fekete History of Astronomy When you think of astrology you may think of the horoscope section in your local paper or of Nancy Reagan's consultations with an astrologer in the White House in the 1980s Yet almost every religion uses some form of astrology some way of thinking about the sun moon stars and planets and how they hold significance for human lives on earth Astrology and Cosmology in the World's Religions offers an accessible overview of the astrologies of the world's religions placing them into context within theories of how the wider universe came into being and operates Campion traces beliefs about the heavens among peoples ranging from ancient Egypt and China to Australia and Polynesia and India and the Islamic world Addressing each religion in a separate chapter Campion outlines how by observing the celestial bodies people have engaged with the divine managed the future and attempted to understand events here on earth This fascinating text offers a unique way to delve into comparative religions and will also appeal to those intrigued by New Age topics Unlike most students of astrology Campion transcends the limitations of Western tradition to examine the nature and roles of astrological and cosmological concepts in cultures from all continents His examples provide original insights into how cosmologies shape these cultures artistic intellectual and religious activities Stephen McCluskey West Virginia University *Astronomy in the Origins of Religion* Cometan, 2020-09-15 Official title Do the prehistoric interactions between astronomy and religion form a distinct religious tradition In the dissertation for his Master's of Arts degree from the University of Central Lancashire Cometan introduced and thoroughly explored his theory of the existence of the oldest religious tradition based on astronomical observation which he titles the Astronic tradition or Astronicism In this work which received a Distinction Grade of 87 following its examination Cometan discovers that astronomy and religion were indeed intertwined in prehistoric and ancient times Through archaeological evidence Cometan makes the case for the existence of an Astronic religious tradition stretching back to the Upper Palaeolithic period of the Stone Age some 40 000 years ago Key ideas of Cometan's dissertation work include astromorphism astrolatry astroglyphs astromancy astronomical religion and the theory of an astronomical Urreligion an original or primordial religion **The Routledge Handbook of Classics and Queer Theory** Ella Haselswerdt, Sara H. Lindheim, Kirk Ormand, 2023-09-29 New directions in queer theory continue to trouble the boundaries of both queerness and the classical leading to an explosion of new work in the vast and increasingly uncharted

intersection between these disciplines which this interdisciplinary volume seeks to explore This handbook convenes an international group of experts who work on the classical world and queer theory The discipline of Classics has been involved with and implicated in queer theory from the start By placing front and center the rejection of heteronormativity queer theory has provided Classics with a powerful tool for analyzing non normative sexual and gender relations in the ancient West while Classics offers queer theory ancient material such as literature visual arts and social practices that challenges a wide range of modern normative categories The collection demonstrates the vitality of this particular moment in queer classical studies featuring an expansive array of methodologies applied to the interdisciplinary field of Classics Embracing the indeterminacy that lies at the core of queer studies the essays in this volume are organized not by chronology or genre but rather by overlapping categories under the following rubrics queer subjectivities queer times and places queer kinships queer receptions and ancient pasts queer futures The Routledge Handbook of Classics and Queer Theory offers an invaluable collection for anyone working on queer theory especially as it applies to premodern periods it will also be of interest to scholars engaging with the history of sexuality both in the ancient world and more broadly

Astrology and Popular Religion in the Modern West Nicholas Campion, 2016-04-15 This book explores an area of contemporary religion spirituality and popular culture which has not so far been investigated in depth the phenomenon of astrology in the modern west Locating modern astrology historically and sociologically in its religious New Age and millenarian contexts Nicholas Campion considers astrology's relation to modernity and draws on extensive fieldwork and interviews with leading modern astrologers to present an invaluable contribution to our understanding of the origins and nature of New Age ideology This book challenges the notion that astrology is either marginal or a feature of postmodernism Concluding that astrology is more popular than the usual figures suggest Campion argues that modern astrology is largely shaped by New Age thought influenced by the European Millenarian tradition that it can be seen as an heir to classical Gnosticism and is part of the vernacular religion of the modern west *The Encyclopedia of World Religions* Robert S. Ellwood, 2008 Contains nearly 600 brief entries on the world's religious traditions

The Dawn of Astrology: The ancient and classical worlds Nicholas Campion, 2008 This first volume comprehensively charts the origins and development of Western astrology from 30 000 BCE up to the 5th century

Astrology for Christians Suzan Stephan, 2019-04-28 Tracing the roots of astrology from Abraham through the life of Christ and the surrounding Roman Empire this book provides astonishing evidence that astrology once held an essential position within early Christian beliefs and traditional monotheistic Hebrew culture Powerful proofs from history and the Bible are examined and the reasons behind the unfounded defamation of astrology by Roman church authorities are presented finally legitimatizing astrology for Christians today Applicable to the seasoned astrologer yet easy to understand by those with little knowledge of astrology detailed historical and astrological evidence behind the Star of Bethlehem the biblical nature of wisdom and the wise men are explored Original horoscopes for King David and the eclipse

preceding the birth of Jesus are described with astounding implications for modern understanding The final messages are clear God is real The story of Jesus Christ is real The manifestation of God's will is real and nowhere in the Bible is there a condemnation of astrology **Intersections of Religion and Astronomy** Chris Corbally, Darryl Dinell, Aaron

Ricker, 2020-11-01 This volume examines the way in which cultural ideas about the heavens shape religious ideas and are shaped by them in return Our approaches to cosmology have a profound effect on the way in which we each deal with religious questions and participate in the imaginative work of public and private world building Employing an interdisciplinary team of international scholars each chapter shows how religion and cosmology interrelate and matter for real people Historical and contemporary case studies are included to demonstrate the lived reality of a variety of faith traditions and their interactions with the cosmos This breadth of scope allows readers to get a unique overview of how religion science and our view of space have and will continue to impact our worldviews Offering a comprehensive exploration of humanity and its relationship with cosmology this book will be an important reference for scholars of Religion and Science Religion and Culture Interreligious Dialogue and Theology as well as those interested in Science and Culture and Public Education *The Puzzle of the Western Zodiac: Its Wisdom and Evolutionary Leaps* Alex A. Gurshtein, 2017-12-29 Though familiar to all the twelve strong Western Zodiac remains an enigmatic artifice of the archaic past To date no scholar has been able to determine who conjured up its constellations and when this might have happened Nor do we know what the grand design behind this innovative endeavor might have been This book however goes a long way towards answering those questions by combining together a variety of clues from multiple disciplines including astronomy archaeology and linguistics It provides a comprehensive framework that greatly expands our understanding of the genesis and purposes of this remarkable intellectual relic of our cultural heritage The book's overarching outcome that the zodiacal necklace in the sky appeared gradually over time in three different stages with each reflecting the immanent social and spiritual concerns of its time provides a fundamental impact to reconsider our understanding of prehistory No special knowledge is necessary to understand this captivating writing
