technicians and assistants emergency and critical care veterinary technician specialists and veterinary technician students

BSAVA Manual of Small Animal Practice Management and Development Carole Clarke, Marion

Chapman, 2012-11-05 This is more than just a management book. Written by a range of experienced authors who have designed and built surgeries, managed veterinary staff, bought and used the equipment and cleaned the floors, this Manual brings ideas and guidelines that will be useful in improving and running a small animal veterinary business, whether established or new. Following a brief foray into the construction planning process, each area of the practice, both clinical and non-clinical, is considered in detail: its design, equipment and maintenance, and the organization and management of the clinical and support teams. The second part of the Manual deals with communication and people management issues, including leadership skills and self-management, together with the ethical and legal framework within which vets and vet nurses work. Thirdly, the business aspects of veterinary practice are explored, including planning, finance, marketing, the client experience and clinical governance. As well as being a daily source of information for veterinary surgeons and managers in companion animal practice, the Manual helps support studies for certificates in practice management. It will aid preparation for PSS and VMD inspections and will be of benefit to all practitioners wanting to improve their quality of service, premises and facilities, and the management of their clinical and support teams. Examples of forms, protocols and SOPs are given throughout, and the book has a wealth of images to complement and enhance the text. The first BSAVA Manual of Practice Improvement was published in 1972; this completely new Manual will inspire and support a new generation of veterinary surgeons in their careers in small animal practice.

Clinical Manual of Small Animal Endosurgery Alasdair Hotston

Moore, Rosa Angela Ragni, 2012-05-14 A practical and comprehensive guide to rigid endoscopy and endosurgery in small animal practice. Fully illustrated throughout, it covers the clinical treatment of small animals from pre-operative through to post-operative care. With reference to specific procedures, this manual includes guidance on the selection of equipment, surgical techniques, anaesthesia and possible complications. A specialist chapter advising on the treatment of birds, reptiles and small mammals is also included. Clinical Manual of Small Animal Endosurgery will enable veterinarians to develop and improve their endoscopic techniques in clinical practice, as well as providing guidance on referral options for more complex cases. **KEY FEATURES** Provides comprehensive information on how to perform rigid endoscopic investigations and procedures. The focus is on dogs and cats, with a specialist chapter covering the treatment of exotic small animals. Contains many full-colour clinical photographs. Written and edited by experts in the field.

The UFAW Handbook on the Care and Management of Laboratory and Other Research Animals Robert C. Hubrecht, James Kirkwood, 2010-01-19

The seminal reference on the care of laboratory and captive animals. The UFAW Handbook on the Care and Management of Laboratory and Other Research Animals is a must-have for anyone working in this field. The UFAW Handbook has been the definitive text since 1947. Written for an international audience, it contains contributions from experts from around the world. The book focuses on

best practice principles throughout providing comprehensive coverage with all chapters being peer reviewed by anonymous referees As well as addressing the husbandry of laboratory animals the content is also of great value to zoos and aquaria Changes for the eighth edition Revised and updated to reflect developments since publication of the previous edition New chapters on areas of growing concern including the 3Rs phenotyping statistics and experimental design welfare assessment legislation training of people caring for lab animals and euthanasia All material combined into one volume for ease of reference This book is published on behalf of UFAW The Universities Federation for Animal Welfare with whom we also publish the UFAW Wiley Blackwell Animal Welfare Book Series This major series of books provides an authoritative source of information on worldwide developments current thinking and best practice in the field of animal welfare science and technology For details of all of the titles in the series see <http://www.wiley.com/go/ufaw> www.wiley.com/go/ufaw
