Capturing Loyalty John A. Larson, Bennett E. McClellan, 2017-09-15 Written by two highly successful business coaches and management consultants this book explains how to improve profitability by focusing on turning a business's already satisfied customers into highly satisfied customers by removing their sense of risk The authors also provide a fail safe method for identifying the risks inherent in your business Every business owner or manager knows that creating satisfied customers is key to establishing customer loyalty and building a business But many are applying the wrong strategy in trying to achieve customer loyalty instead of focusing on consistent execution of the company's value proposition on a day to day basis they waste their efforts constantly chasing after new customers or trying to address every complaint Using research to demonstrate how striving to turn merely satisfied customers into highly satisfied customers significantly affects loyalty behaviors and in turn boosts profits Capturing Loyalty lays out a new approach to a very old problem Additionally it presents a blueprint for identifying the perceived risks to consumers inherent in your business many of which are not readily apparent

to the casual or even invested observer and explains how to minimize those risks Authors Larson and McClellan explain why trying to ensure 100% customer satisfaction is not the path to achieving customer loyalty and that the reality is that customer dissatisfaction is rarely the result of an error a business has made two concepts that many initially find counterintuitive You ll learn how to offer your company s products and services in a manner that creates highly satisfied customers understand the true value and vast economic benefits of having highly satisfied customers and see why highly satisfied customers are actually cheaper to serve than others The book presents a clear and comprehensive plan for creating a loyalty initiative suitable to your business and cascading it through your entire organization from the C suite to the line employees This Is Our Time Trevin Wax,2017-03-01 Uncertain Confused Overwhelmed Many Christians feel bombarded by the messages they hear and the trends they see in our rapidly changing world How can we resist being conformed to the pattern of this world What will faithfulness to Christ look like in these tumultuous times How can we be true to the gospel in a world where myths and false visions of the world so often prevail In *This is Our Time* Trevin Wax provides snapshots of twenty first century American Life in order to help Christians understand the times By analyzing our common beliefs and practices smartphone habits entertainment intake and our views of shopping sex marriage politics and life s purpose Trevin helps us see through the myths of society to the hope of the gospel As faithful witnesses to Christ Trevin writes we must identify the longing behind society s most cherished myths what is good true beautiful expose the lie at the heart of these myths what is false and damaging and show how the gospel tells a better story one that exposes the lie but satisfies the deeper longing *Don't Knock the Hustle* S. Craig Watkins,2019-05-07 Offers a timely analysis of the sheer ingenuity and persistence of young people who cobble together the resources they need to pursue the lives and careers they want Young adults are coming of age at a time when work is temporary underpaid incommensurate with their education or downright unsatisfying Despite these challenges media scholar S Craig Watkins argues that this moment of precarity is rife with opportunities for innovation and that young adults are leading the charge in turning that into an inventive and surprisingly sustainable future As a result society is expanding its understanding of who we think of as innovators and what qualifies as innovation while wealth is spreading beyond traditional corridors of powerful tech companies venture capitalism and well endowed universities Drawing on over ten years of interviews and data Watkins reveals the radical ways in which this community of ambitious young creatives is transforming businesses from the outside in Diverse perspectives that are often ignored or silenced by major corporations are garnering public attention as women and people of color are redefining industries across the globe all from their computer screens We meet people like Prince Harvey a New York based hip hop artist who recorded his album entirely on an Apple showroom laptop screenwriter producer and actor Issa Rae who first used YouTube and Kickstarter to develop the web series that became her hit HBO show *Insecure* the Empowerment Plan a nonprofit organization created by product design student Veronika Scott in Detroit and start up companies like Qeyno Group in San Francisco and Juegos
