Zeus Is A Dick Susie Donkin, 2020-11-05 In the beginning everything was fine And then along came Zeus more or less Ahh Greek myths Those glorious tales of heroism honour and petty squabbles soap opera drama and more weird sex than Fifty Shades of Grey could shake a stick at It s about time we stopped respecting myths and started laughing at them Did you know Aphrodite goddess of love and beauty was born of some discarded genitals Or that Hera threw her own son off a mountain because he was ugly Or that Apollo once kidnapped a boat full of people while pretending to be a dolphin And let s not even get started on Zeus king of the gods ruler of the skies and a man who s never heard of self control In fact if there s one thing most Greek myths have in common it s that all the drama could have been avoided if SOMEONE could keep it in their toga Horrible Histories writer Susie Donkin takes us on a hilarious romp through mythology and the many times the gods literally screwed everything up Stephen Fry s Mythos by way of Drunk History Zeus is a Dick is perfect for those who like their myths with a heavy dollop of satire Who knew mythology was so bonkers I am grateful it had me laughing from the first page to the last Miranda Hart It s about time someone called him out on all this Hera goddess of marriage wife of Zeus Worst Father Ever Artemis goddess of the hunt daughter of Zeus Oh yeah focus on him I never did anything wrong Nothing to see here Poseidon god of the seas brother of Zeus Just a real dick honestly Many many people The Cult of Mac, 2nd Edition Leander Kahney, David Pierini, 2019-12-05 It s been nearly fifteen years since Apple fans raved over the first edition of the critically acclaimed The Cult of Mac This long awaited second edition brings the reader into the world of Apple today while also filling in the missing history since the 2004 edition including the creation of Apple brand loyalty the introduction of the iPhone and the death of Steve Jobs Apple is a global luxury brand whose products range from mobile phones and tablets to streaming TVs and smart home speakers Yet despite this dominance a distinct subculture persists which celebrates the ways in which Apple products seem to encourage self expression identity and innovation The beautifully designed second edition of The Cult of Mac takes you inside today s Apple fandom to explore how devotions new and old keep the fire burning Join journalists Leander Kahney and David Pierini as they explore how enthusiastic fans line up for the latest product releases and how artists pay tribute to Steve Jobs legacy in sculpture and opera Learn why some photographers and filmmakers have eschewed traditional gear in favor of iPhone cameras Discover a community of collectors around the world who spend tens of thousands of dollars to buy restore and enshrine Apple artifacts like the Newton MessagePad and Apple II Whether you re an Apple fan or just a casual observer this second edition of The Cult of Mac is sure to reveal more than a few surprises offering an intimate look at some of the most dedicated members in the Apple community *Shopomania* Paul Berton, 2022-10-15 A thought provoking and provocative challenge to consumerism with plenty of name dropping and celebrity antics Sassy and satirical Shopomania is an economic environmental and social study This light hearted dark souled dictionary of coined words or shoponyms takes readers on a roller coaster ride of avaricious antics and outrageous profligacy

Shopping in one form or another has existed for millennia but aside from a few slumps each generation has outdone the previous one In the past fifty years shopping and its associated carbon footprint has grown exponentially Berton argues that if we invented today's consumer culture then we can invent something to replace it We can do a better job of making the cycle of stuff truly circular rather than linear We can be more environmentally socially and politically conscious of what we buy and how it comes to us and where it will go after we are finished with it A species that has made shopping ubiquitous can figure all these things out with little more than cooperation and creativity and by asking if it is really necessary to own it now as we have been told endlessly since childhood Must we possess a thing to enjoy it Do we really need all that stuff

Bringers of Order James N. Gilmore, 2025-02-04 Wearable technology including smartwatches biometric trackers and body cameras are often touted as helpful tools that record produce and analyze data about daily life to improve our individual habits and health or to solve serious public issues In this book James N Gilmore argues that these lofty promises mask forms of surveillance and power Charting the implementation of wearables in areas of accessibility health sports labor law enforcement and infrastructure Gilmore demonstrates how these devices have been positioned as authoritative means for producing knowledge about human activity Drawing on news reporting advertising film and television company reports and legal policies he shows how this knowledge production reproduces three distinct modes of power normalcy surveillance and solutionism Bringers of Order empowers readers to examine the complicated ways our devices reshape how we think about our lives and our ethics and why we should resist companies analyzing our personal data
