Twentieth-Century Mass Society in Britain and the Netherlands Bob Moore, Henk van Nierop, 2006-12-26 From the beginning of the nineteenth century Western Europe witnessed the emergence of a mass society Grand social processes such as urbanization industrialization and democratization blurred the previous sharp distinctions that had divided society This massive transformation is central to our understanding of modern society Comparing the British and Dutch experience of mass society in the twentieth century this book considers five major areas politics welfare media leisure and youth culture In each section two well known specialists one from each country examine the conditions behind the rise of a mass society and show how these conditions were distinctively British or Dutch Drawing on history cultural studies and sociology the authors bring new insight into the development of modern European society

Schooling and the Making of Citizens in the Long Nineteenth Century Daniel Tröhler, Thomas S. Popkewitz, David F. Labaree, 2011-05-09 This book is a comparative history that explores the social cultural and political formation of the modern nation through the construction of public schooling It asks how modern school systems arose in a variety of different republics and non republics across four continents during the period from the late eighteenth century to the early twentieth century The authors begin with the republican preoccupation with civic virtue the need to overcome self interest in order to take up the common interest which requires a form of education that can produce individuals who are capable of self guided rational action for the public good They then ask how these educational preoccupations led to the emergence of modern school systems in a disparate array of national contexts even those that were not republican By examining historical changes in republicanism across time and space the authors explore central epistemologies that connect the modern individual to community and citizenship through the medium of schooling Ideas of the individual were reformulated in the nineteenth century in reaction to new ideas about justice social order and progress and the organization and pedagogy of the school turned these changes into a way to transform the self into the citizen

The Holocaust, Israel and 'the Jew' Evelien Gans, Remco Ensel, 2025-10-01 This book is the first comprehensive study of postwar antisemitism in the Netherlands It focuses on the way stereotypes are passed on from one decade to the next as reflected in public debates the mass media protests and commemorations and everyday interactions The Holocaust Israel and the Jew explores the ways in which old stories and phrases relating to the stereotypical Jew are recycled and modified for new uses linking the antisemitism of the early postwar years to its enduring manifestations in today's world The Dutch case is interesting because of the apparent contrast between the Netherlands famous tradition of tolerance and the large numbers of Jews who were deported and murdered in the Second World War The book sheds light on the dark side of this so called Dutch paradox in manifestations of aversion and guilt after 1945 In this context the abusive taunt They forgot to gas you can be seen as the first radical expression of postwar antisemitism as well as an indication of how the Holocaust came to be turned against the Jews The identification of the Jew with the gas chamber spread from the streets to football stadiums and from verbal abuse to pamphlet and protest The slogan Hamas Hamas all the Jews to the gas indicates that Israel became a second marker of postwar antisemitism The chapters cover themes including soccer related antisemitism Jewish responses philosemitism antisemitism in Dutch Moroccan and Dutch Turkish communities contentious acts of remembrance the neo Nazi tradition and the legacy of Theo van Gogh The book concludes with a lengthy epilogue on the Jew in the politics of the radical right the attacks in Paris in 2015 and the refugee crisis The stereotype of the Jew appears to be transferable to other minorities
