Ballet Body Narratives Pain Pleasure And Perfection In Embodied Identity:

Ballet Body Narratives Angela Pickard, 2015 Ballet Body Narratives is an ethnographic exploration of the social world of classical ballet and the embodiment of young ballet dancers as they engage in becoming a dancer in ballet schooling in England This book sheds new light on the distinctiveness of ballet culture in studies of the body

Culture, Identity and Intense Performativity Tim Jordan, Brigid McClure, Kath Woodward, 2017-01-12 Being in the zone means performing in a distinctive unusual pleasurable and highly competent way at something you already regularly do dancing or playing a viola computer programming tennis and much more What makes the zone special This volume offers groundbreaking research that brings sociological and cultural studies to bear on the idea of being in the zone There is original research on musicians dancers and surfers which shows that being in the zone far from being exclusively individualised and private but must be understood as social and collective and possibly accessible to all The zone is not just for elite performers Being in the zone is not just the province of the athlete who suddenly and seemingly without extra effort swims faster or jumps higher or the musician who suddenly plays more than perfectly but also of the doctor working under intense pressure or the computer programmer staying up all night The meaning of such experiences for convincing people to work in intense conditions often with short term contracts is explored to show how being in the zone can have problematic effects and have negative and constraining as well as creative and productive implications Often being in the zone is understood from a psychological viewpoint but this can limit our understanding This volume provides the first in depth analysis of being in the zone from social and cultural viewpoints drawing on a range of theories and novel evidence Written in a stimulating and accessible style

Culture Identity and Intense Performativity Being in the Zone will strongly appeal to students and researchers who aim to understand the experience of work creativity musicianship and sport Issues of the body are also central to being in the zone and will make this book relevant to anyone studying bodies and embodiment This collection will establish being in the zone as an important area of enquiry for social science and the humanities

Conversations on Embodiment Across Higher Education Jennifer Leigh, 2018-09-14 Embodiment is a concept that crosses traditional disciplinary boundaries However it is a contested term and the literature is fragmented particularly within Higher Education This has resulted in silos of work that are not easily able to draw on previous or related knowledge in order to support and progress understanding Conversations on Embodiment Across Higher Education brings a cohesive understanding to congruent approaches by drawing on discussions between academics to explore how they have used embodiment in their work This book brings academics from fields including dance drama education anthropology early years sport sociology and philosophy together to begin conversations on how their understandings of embodiment have impacted on their teaching practice and research Each chapter explores an aspect of embodiment according to a particular disciplinary or theoretical perspective and begins a discussion with a contributor with another viewpoint This book will appeal to academics researchers and postgraduate

students from a diverse range of disciplinary areas as evidenced by the backgrounds of the contributors. It will be of particular interest to those in the fields of education, sociology, anthropology, dance, and drama, as well as other movement or body orientated professionals who are interested in the ideas of embodiment.

Dance, Professional Practice, and the Workplace Angela Pickard, Doug Risner, 2020-01-10. Originally published as a special issue of *Research in Dance Education* now with an added chapter, this text acknowledges and celebrates the increasingly diverse careers and employment networks in which dance professionals and dance educators are engaged. Addressing issues and developments relating to the workplace of dance, the text explores what it means to transcend the boundary between dance as passion and dance as employment. Chapters explore challenges of professional practice including limitations on access, precarity, bodily risk, gender inequality, and sexual harassment, and challenge the status quo to offer readers new ways of thinking about dance and how this might translate into professional practice and work. Ultimately celebrating the passion which motivates dancers to embark on a professional career and highlighting the elation and joy which such employment can bring, this volume encourages dance professionals, students, and educators to imagine things differently and develop teaching approaches, curricula, work places, and communities which capitalise on the diversity and dedication of individuals in the field. This text will be of great interest to graduate and postgraduate students, researchers, academics, professionals in the field of Dance Education, Choreography, and related art forms, Curriculum studies, and Sociology of Education.

Essentials of Dance Psychology Sanna Nordin-Bates, 2023. *Essentials of Dance Psychology* helps readers understand the psychological factors that affect dance and learn and apply psychological skills to their dance practice. It also aids teachers in designing environments that inspire physically and psychologically healthy performance.

Contemporary Choreography Jo Butterworth, Liesbeth Wildschut, 2017-12-06. Fully revised and updated, this second edition of *Contemporary Choreography* presents a range of articles covering choreographic enquiry, investigation into the creative process, and innovative challenges to traditional understandings of dance making. Contributions from a global range of practitioners and researchers address a spectrum of concerns in the field, organized into seven broad domains: Conceptual and philosophical concerns, Processes of making, Dance dramaturgy, structures, relationships, contexts, Choreographic environments, Cultural and intercultural contexts, Challenging aesthetics, Choreographic relationships with technology. Including 23 new chapters and 10 updated ones, *Contemporary Choreography* captures the essence and progress of choreography in the twenty-first century, supporting and encouraging rigorous thinking and research for future generations of dance practitioners and scholars.

Feminizing Theory Rhea Ashley Hoskin, 2021-09-09. The term *femme* originates from 1940s Western working-class lesbian bar culture, wherein *femme* referred to a feminine lesbian who was typically in a relationship with a butch lesbian. Expanding from this original meaning, *femme* has since emerged as a form of femininity reclaimed by queer and culturally marginalized folks. Importantly, *femme* has also evolved into a theoretical framework. *Femme theory* argues that *femme* constitutes a missing piece in queer and

feminist discourses of femininity Attending to this gap femme theory centres queer femininities as a means of pushing against the deeply embedded masculinist orientation of queer and gender theory Thus femme theory offers tools to shift the way researchers and readers understand femininity as well as systems of gender and power more broadly This book is an introduction to femme theory showcasing how femme can be used as a theoretical framework across a variety of contexts and disciplines such as Film from countries including Canada China Guyana and the USA Femme theory asks readers to reconsider how femininity is conceptualized revealing some of the many taken for granted assumptions that are embedded within cultural discourses of gender sexuality and power The chapters in this book were originally published as a special issue of the Journal of Lesbian Studies

Black Queer Dance Mark Broomfield, 2024-08-20 This book is a groundbreaking exploration of black masculinity and sexual passing in American contemporary dance Based on ethnographic fieldwork in New York City the book features keen observations and in depth interviews with acclaimed dancer choreographers Desmond Richardson and Dwight Rhoden Co Artistic Directors of Complexions Contemporary Ballet and Ronald K Brown Artistic Director of Evidence Black Queer Dance examines one of the most visible crucibles for masculinity the male dancer and illuminates the contradictory and conditional acceptance of black gay men s contributions to American modern dance The book questions the politics of coming out and situates a new framework of doing out for understanding marginalized black LGBTQ people in the 20th and 21st century Narratives of black queer male dancers performance of identity reveals the challenges posed navigating strategic gender performances in a purportedly post gay and post race American culture Broomfield demonstrates how the experiences of black queer gender nonconforming and nonbinary men expose the illusions of all masculine gender performances Drawing on masculinity studies dance studies critical race and performance theory and queer studies Black Queer Dance implicates the author s embodied history autoethnography memoir and poetry that shines light on how black queer men offer an expansive vision of masculinity This book will be a vital read for graduate and undergraduate students within dance and performance studies

Routledge Handbook of Primary Physical Education Gerald Griggs, Kirsten Petrie, 2017-11-27 The Routledge Handbook of Primary Physical Education goes further than any other book in exploring the specific theoretical and practical components of teaching PE at the primary or elementary school level As the most comprehensive review of theory research and practice in primary PE yet published it represents an essential evidence based guide for all students researchers and practitioners working in this area Written by a team of leading international primary PE specialists from academic and practitioner backgrounds this handbook examines the three discourses that dominate contemporary PE health education and sport With case studies from twelve countries including the UK USA Canada Australia New Zealand Norway Spain and South Korea it provides a truly international perspective on key themes and issues such as primary PE pedagogy policy and curriculum development assessment and standards child development diversity and inclusion teacher training and professional development Offering an unprecedented wealth of

material this handbook is an invaluable reference for any undergraduate or postgraduate degree programme in primary physical education or any primary teacher training course with a physical education element
