Bannon High Caliber:

Bannon Brothers: Honor Janet Dailey, 2013 The newest novel in Dailey's bestselling Bannon brothers trilogy is a sweeping suspenseful action packed romance that takes readers into the life of a rugged and charismatic Lincoln Bannon

Better Venture Erika Brodnock, Johannes Lenhard, 2020-11-11 Better Venture is a first of its kind guide to diversity and inclusion in startups and venture capital who funds who gets funded and how the industry can change The industry's lack of diversity and inclusion not only compromises moral standing it means overlooking profitable businesses and talented founders That costs hundreds of millions of dollars a year and neglects ideas that could serve the needs of many more people In this collection of interviews stories and research we use the momentum that has been building in recent years to expand the conversation about DEI venture capital and the startup ecosystem and to inspire more concrete action Highlights 43 in depth conversations with leading investors entrepreneurs and researchers making it one of the most comprehensive and diverse sets of perspectives on the startup ecosystem ever assembled in one place An economic history of venture capital through a diversity lens On the ground stories from founders and VCs that explore ways to create a more diverse inclusive equitable and profitable venture ecosystem No blog post can give the deep understanding and vision needed to address the complexity of the topic That's why we came together to write this book and are bringing in so many voices to clarify the picture of what is and what could be Over the course of two years of research and discussion with almost 100 experts we set out to answer four questions Why has the industry been so slow to change We map the economic origins and history of venture capital to understand how the economics of VC has contributed to the glacial pace of diversifying the industry What barriers are founders and investors facing now We draw on contributions from investors operators founders and journalists to help catalog the barriers for founders seeking funding and for investors seeking entry and influence in the industry Can diversity really lead to higher returns We bring in new research and data to help us understand how betting on underrepresented founders and investors is really the better venture Why does diversifying the industry matter and to whom How is it linked to financial performance and better decision making How will it improve innovation across industries What can be done for positive change We discuss cost effective and evidence based interventions tools and solutions that can help to make the VC and startup worlds more diverse and inclusive and result in higher returns We hope this book and the conversations it contains help fulfill the vision of a more diverse inclusive and profitable ecosystem It's time venture got better
