

Business Studies Research Task

Also as this requires human resources and annual labor it does not require many skills or degrees to higher some people to be on the payroll and to gain more business. This business can also be established from scratch or by buying into a franchise, but I will start from scratch as this is also an exterior cleaning business. 1. 2 SOOT Analysis 1. 3 Classification of Business The business that I have chosen to establish is a service business, which means that it offers services or intangible assets and it charges for labor rather than a good which is sold.

The business will also end up being over 20 workers making it a tedium enterprise and in this way it will expand from just the small area around where we being to more of Sydney. 1. 4 Vision and goals "To provide a busy family home with a quick, thorough cleaning service which is accurate, on time, staff friendly and always efficient." The vision that I have for the business is to provide a family home with a cleaning service that can fit around their busy time schedule and is always done properly, finished on time with friendly staff that are always efficient in their work.

This will give the family or person comfort that they have chosen the right business to clean their house for them. Goals for the business: To gain a trustworthy and good name To gain good business and a substantial income To expand and slowly gain more employees and customers 2. 1 Identification of the target Market The target mark that my business is aiming for is the young family or couple (being 2+ people) this is because as the young family is becoming busier and busier they cannot afford to waste time cleaning their house, this means that it is a great place to start getting jobs to work the employees of the business.

It is also the ideal place because not only do they have less time to clean the house themselves, usually the house is bigger than just a single floor which means the more time to clean means that there is also a higher income for the company. This target market also is much higher than others meaning there will be plenty of jobs and even if some of them do not continue on a contract there are still plenty of places that need the service we provide. 2. Recommendation of marketing strategies Service: In most service business companies the focus that people pay to is obvious. How good the service is, in this matter our focus is on selling how efficient and on time our service is. So what we will focus on in the first few weeks is being a company that focuses all of its effort on the service, making it the best that it could possibly be, in doing this hopefully we are noticed and the word is spread, with a good working policy the business will be better known and therefore we will sell to our target market better.

Price: The price that we will aim for is based on the size of the house and the time

The SAGE Handbook of the Digital Media Economy Terry Flew, Jennifer Holt, Julian Thomas, 2022-09-23 Debates about the digital media economy are at the heart of media and communication studies. An increasingly digitalised and datafied media environment has implications for every aspect of the field from ownership and production to distribution and consumption. The SAGE Handbook of the Digital Media Economy offers students, researchers and policy makers a multidisciplinary overview of contemporary scholarship relating to the intersection of the digital economy and the media, cultural and creative industries. It provides an overview of the major areas of debate and conceptual and methodological frameworks through chapters written by leading scholars from a range of disciplinary perspectives. PART 1 Key Concepts PART 2 Methodological Approaches PART 3 Media Industries of the Digital Economy PART 4 Geographies of the Digital Economy PART 5 Law, Governance and Policy **Handbook of Media Management and Economics** Alan Albarran, Bożena Mierzejewska, Jaemin Jung, 2018-04-27 Winner of the 2019 Robert Picard Book Award. The Handbook of Media Management and Economics has become a required reference for students, professors, policy makers and industry practitioners. The volume was developed around two primary objectives: assessing the state of knowledge for the key topics in the media management and economics fields and establishing the research agenda in these areas, ultimately pushing the field in new directions. The Handbook's chapters are organized into parts addressing the theoretical components, key issues, analytical tools and future directions for research. With its unparalleled breadth of content from expert authors, the Handbook provides background knowledge of the various theoretical dimensions and historical paradigms and establishes the direction for the next phases of research in this evolving arena of study. Updates include the rise of mobile and social media, globalization, audience fragmentation and big data. **The Oxford Handbook of Creative Industries** Candace Jones, Mark Lorenzen, Jonathan Sapsed, 2015-07-23 The Oxford Handbook of Creative Industries is a reference work bringing together many of the world's leading scholars in the application of creativity in economics, business and management, law, policy, studies, organization studies and psychology. Creative industries research has become a regular theme in academic journals and conferences across these subjects and is also an important agenda for governments throughout the world while business people from established companies and entrepreneurs reevaluate and innovate their models in creative industries. The Handbook is organized into four parts. Following the editors' introduction, Part One on Creativity includes individual creativity and how this scales up to teams, social networks, cities and labour markets. Part Two addresses Generating and Appropriating Value from Creativity as achieved by agents and organizations such as entrepreneurs, stars and markets for symbolic goods and considers how performance is measured in the creative industries. Part Three covers the mechanics of Managing and Organizing Creative Industries with chapters on the role of brokerage and mediation in creative industry networks, disintermediation and glocalisation due to digital technology, the management of project based organizations in creative

industries organizing events in creative fields project ecologies Global Production Networks genres and classification and sunk costs and dynamics of creative industries Part Four on Creative Industries Culture and the Economy offers chapters on cultural change and entrepreneurship on development on copyright economic spillovers and government policy This authoritative collection is the most comprehensive source of the state of knowledge in the increasingly important field of creative industries research Covering emerging economies and new technologies it will be of interest to scholars and students of the arts business innovation and policy
