Business Studies Memorandum 2014 September:

Retirement in Japan and South Korea Masa Higo, Thomas R. Klassen, 2015-04-10 This book analyses reforms to retirement policies in Japan and South Korea especially in the context of rapid population ageing A defining feature of the labour markets and workplaces in these two nations and the lives of workers and families is involuntary retirement at relatively young ages The book explains past developments and recent reforms of retirement policies both in the two countries as well as in a cross national comparative manner At the core of the book is an examination of the social economic and political conflicts around retirement such as between younger and older workers between employers and governments and between employers and workers The policy recommendations offered apply not only to Japan and South Korea but also to other nations such as China The volume is of value particularly for those interested in labour markets and workplaces population ageing and contemporary East Asia in addition to those studying retirement and pensions Policymakers business leaders worker organizations researchers and students will benefit from the insights about the past present and future of retirement

Emerging Dynamics of Sustainability in Multinational Enterprises John R. McIntyre, Silvester Ivanaj, Vera Ivanaj, Rabi N. Kar, 2016-02-26 Economic development that meets the needs of the global population without jeopardizing the capacity of future generations is a worldwide challenge for multinational enterprises MNEs They are expected to balance their role as global economic actors and environmental stewards in the environment in which they operate Contributors from India Europe and the United States offer new perspectives contrasting US European and emerging economies approaches to sustainability and how they can generate roadmaps which yield innovative solutions for one of the most contentious issues of our era Their review suggests that the differential performance across developed and emerging economies has exposed potential weaknesses Emerging Dynamics of Sustainability in Multinational Enterprises promotes greater emphasis on experimenting with unique local and sustainable approaches to solving problems faced by firms in or from emerging economies This is a critical resource for researchers practitioners and policy makers concerned with sustainable development issues and a fresh reference for graduate level students and academics focusing on corporate governance sustainable development and ethics as well as multinational enterprise management

Yudhoyono Presidency Edward Aspinall, 2016-04-29 The presidency of Susilo Bambang Yudhoyono 2004 14 was a watershed in Indonesia's modern democratic history Yudhoyono was not only the first Indonesian president to be directly elected but also the first to be democratically re-elected Coming to office after years of turbulent transition he presided over a decade of remarkable political stability and steady economic growth But other aspects of his rule have been the subject of controversy While supporters view his presidency as a period of democratic consolidation and success critics view it as a decade of stagnation and missed opportunities This book is the first comprehensive attempt to evaluate both the achievements and the shortcomings of the Yudhoyono presidency With contributions from leading experts on Indonesia's politics economy and

society it assesses the Yudhoyono record in fields ranging from economic development and human rights to foreign policy the environment and the security sector **Vladimir Putin and Russia's Imperial Revival** David E. McNabb, 2016-02-12

Discerning the early stages of the rebirth of a new Russian empire from the ashes of the Soviet Union Vladimir Putin and Russia's Imperial Revival argues that Russia's recent overtly aggressive actions and foreign policy doctrines have signaled a renewal of the Cold War At the least Russia's actions represent the potential for renewal This book explains these developments in a historical context The book begins by describing Russia's initial policy of rapprochement after the collapse of the Soviet Union and its development into a foreign policy of threatened or actual armed aggression It identifies today's Russia as a nation determined to re-establish itself as a political and military force As a prominent figure in the development and continuation of its current foreign policy Vladimir Putin plays a central role in the topics covered Previous literature often treats Putin as an individual phenomenon examining his connections to corruption or the secret police but here David E McNabb examines him as the latest in a long history of Russian despots who followed similar expansionist policies He details some of the tactics Putin uses to instill fear and dominate political policies of republics newly independent from Russia These tactics include the use of energy as a weapon cyber terrorism and military support for ethnic Russian separatists in other sovereign nations most recently exemplified by Russia's annexation of Crimea from Ukraine via armed invasion In an attempt to demystify Russia's re-emergence as an international political force Vladimir Putin and Russia's Imperial Revival grounds its analyses in history It explores as far back as the establishment of the first Russian empire and regards Putin as a leader determined to establish a fifth imperial incarnation It provides a nuanced understanding of how Russia arrived at its current position through recent and distant internal and international events *Reassessing Order and Disorder in the Middle East*

Robert Mason, 2017-02-09 The Middle East is undergoing a period of profound change partly brought about by the United States interventions in Afghanistan and Iraq but also by the Arab Spring This is affecting regional relations between states and between the region and the US For example Qatar Saudi Arabia and the UAE have supported rebel groups in Syria against the government which was supported by Iran Political Islam is a threat to both monarchies in the Gulf and secular states Non-state actors such as Islamic State IS and the Kurdish Regional Government KRG are assuming an increasingly important role in shaping the region Further states such as Qatar and Turkey have undertaken their own quests to shift the existing regional balance of power in their favor through soft power deployment or new or broader international alliances Lastly the close strategic US Saudi relationship primarily based on oil and arms is being eroded by a new economic reality and divergent foreign policy interests This shifting alliances and new regional order is the focus of the book which examines the factors that significantly impact the foreign relations between the countries of the Middle East Through multiple case studies the essays identify the emerging trends and influences that are now dominating the political decision making and policy behavior of many key states The contributors both scholars and practitioners investigate the main foreign policy

challenges and debates in the various states the changing relations and balance of power between them and the continuing role of the United States in the Middle East Each chapter provides an overview of the last decade or so before delving into the current challenges and opportunities often in light of the US as a power with the ability to significantly impinge on state policies and what these issues mean for the regional order This primer on state politics and the transformative capacity of the Middle East will appeal to anyone studying the region Contributions by Gawdat Bahgat Martin Beck Kamran Bokhari Morgane Colleau Bryan Gibson Christian Henderson Ren Rieger Farid Senzai and Sebastian Sons
