Reading and the Reference Librarian Juris Dilevko, Lisa Gottlieb, 2014-10-16 Reference librarians are no longer expected to know much about the information they find they are merely expected to find it Technological competency rather than knowledge has become the order of the day In many respects reference service has become a matter of typing search terms into a library's online catalog or a web search engine and providing the patron with the results of the search Calling for a re intellectualization of reference librarianship this book suggests another approach to providing quality reference service reading The authors surveyed both academic reference librarians and public library reference personnel in the United States and Canada about their reading habits From the 950 responses the authors present findings about the extent to which librarians read newspapers periodicals fiction and nonfiction and recount and analyze stories about how reading has made them better librarians The authors also report that North American professors in the humanities and social sciences believe that the best reference librarians are those who have wide ranging subject based knowledge as opposed to the type of process based functional knowledge that is

increasingly dominating the curricula of many Library and Information Science programs The Case for Critical Literacy
Alice S. Horning,2024-08-15 The Case for Critical Literacy explores the history of reading within writing studies and lays the foundation for understanding the impact of this critical yet often untaught skill Every measure of students reading comprehension whether digital or analog demonstrates that between 50 and 80 percent of students are unable to capture the substance of a full discussion or evaluate material for authority accuracy currency relevancy appropriateness and bias This book examines how college level instruction reached this point and provides pedagogical strategies that writing instructors and teachers can use to address the problem Alice Horning makes the case for the importance of critical reading in the teaching of writing with intentionality and imagination while sharing glimpses of her own personal history with reading and writing Horning provides the context for understanding what college faculty face in their classrooms and offers a history of critical literacy that explains why to date it has mostly neglected or ignored the diverse statuses of students reading challenges The Case for Critical Literacy explores actionable options to better meet students literacy needs College and university faculty especially writing instructors will benefit from an understanding of what has happened in the field and what needs to change *Handbook of Effective Literacy Instruction* Barbara M. Taylor,Nell K. Duke,2014-07-21 The intent of this handbook is to provide a comprehensive forward looking research based resource for teachers teacher educators and researchers on the key inter connected components of effective literacy instruction The book is designed so that it is a readily useable resource for pre service and practicing teachers as well Every chapter in sections I II III and IV includes substantial suggestions for implementing research based practices in the classroom and for engaging in professional learning to help teachers increase their effectiveness as literacy instructors Every chapter in section IV also includes substantial suggestions for fostering collaboration among staff and when applicable parents within schools **Analyzing Communication**
Wolff-Michael Roth,Pei-Ling Hsu,2010-01-01 The collection of data sources in the social sciences involves communication in one form or another between research participants who are observed while communicating or between researcher and researched who communicate so that the former can learn about from the latter How does one analyze communication In particular how does one learn to analyze data sources established in and about communication In response to these questions the authors provide insights into the laboratory of social science research concerned with the analysis of communication in all of its forms including language gestures images and prosody Writing in the spirit of Bourdieu and his recommendations for the transmission of a scientific habitus the authors allow readers to follow their social science research in the making Thus each chapter focuses on a particular topic identity motivation knowing interaction and exhibits how to go about researching it How to set up research projects how to collect data sources how to find research questions and how to do many other practical things to succeed The authors comment on excerpts from the findings of between 2 and 4 published studies to describe how to write and publish research how to address audiences which decisions they have made which

alternative approaches there might exist and many other useful recommendations for data analysis and paper publishing In the end the authors actually follow an expert social scientist as he analyzes data in real time in front of an audience of graduate students The entire book therefore constitutes something like a journey into the kitchen of an experienced chef who gives advice in the process of cooking Saunders Student Nurse Planner, 2013-2014 Pageburst on Kno Retail Access Code Susan C.
