IPod: The Missing Manual J.D. Biersdorfer, David Pogue, 2012-12-19 Explains how to use the portable music player to perform functions including play music store personal contact and calendar information download and use applications and use as a video player Applied Cryptography and Network Security Giuseppe Ateniese, Daniele Venturi, 2022-06-17 The LNCS volume 13269 constitutes the proceedings of the 20th International Conference on Applied Cryptography and Network Security ACNS 2022 which will take place in a hybrid mode in Rome Italy in June 2022 The 44 full papers together with 5 short papers presented in this proceeding were carefully reviewed and selected from a total of 185 submissions They were organized in topical sections as follows Encryption Attacks Cryptographic Protocols System Security Cryptographic Primitives MPC Blockchain Block Cyphers and Post Quantum Cryptography *Mindful Teaching with Technology* Troy Hicks, 2021-11-11 Technology is integral to teaching in the English language arts whether in person hybrid or remote In this indispensable guide Troy Hicks shows how to teach and model digital diligence an alert intentional stance that helps both teachers and students use technology productively ethically and responsibly Resources and lesson ideas are presented to build adolescents skills for protecting online privacy minimizing digital distraction breaking through filter bubbles fostering civil conversations evaluating information on the internet creating meaningful digital writing and deeply engaging with multimedia texts Dozens of websites apps and other tools are reviewed with links provided at the companion website end of chapter teaching points and guiding questions facilitate learning and application Giving Voice Meryl Alper, 2017-01-20 How communication technologies meant to empower people with speech disorders to give voice to the voiceless are still subject to disempowering structural inequalities Mobile technologies are often hailed as a way to give voice to the voiceless Behind the praise though are beliefs about technology as a gateway to opportunity and voice as a metaphor for agency and self representation In *Giving Voice* Meryl Alper explores these assumptions by looking closely at one such case the use of the Apple iPad and mobile app Proloquo2Go which converts icons and text into synthetic speech by children with disabilities including autism and cerebral palsy and their families She finds that despite claims to empowerment the hardware and software are still subject to disempowering structural inequalities Views of technology as a great equalizer she illustrates rarely account for all the ways that culture law policy and even technology itself can reinforce disparity particularly for those with disabilities Alper explores among other things alternative understandings of voice the surprising sociotechnical importance of the iPad case and convergences and divergences in the lives of parents across class She shows that working class and low income parents understand the app and other communication technologies differently from upper and middle class parents and that the institutional ecosystem reflects a bias toward those more privileged Handing someone a talking tablet computer does not in itself give that person a voice Alper finds that the ability to mobilize social economic and cultural capital shapes the extent to which individuals can not only speak but be heard Library as Safe Haven Deborah D.

Halsted, Shari C. Clifton, Daniel T. Wilson, 2014-08-05 Libraries have always played a special role in times of disaster by continuing to provide crucial information and services Use of Remote Sensing to Estimate Paddy Area and Production

Lea Rotairo, Anna Christine Durante, Pamela Lapitan, Lakshman Nagraj Rao, 2019-04-01 A substantial portion of the world's rice is produced and consumed in the Asia and Pacific region. As much of the region's population depends on rice farming for consumption and livelihood, the demand for good quality statistics remains essential for effective policy formulation. Recent advances in remote sensing serve as a viable alternative to traditional methods of compiling agricultural statistics by responding to the emerging data requirements and overall needs of modern agriculture especially for staple commodities such as rice. This publication outlines the procedures, methods and tools developed for generating statistics on paddy rice area and production using remote sensing and GIS techniques. It is intended to encourage and assist national statistical systems in piloting and adopting satellite based techniques as an alternative to existing data collection methods while enabling other interested readers to comprehend whether the adoption of these methodologies can improve the quality and timeliness of agricultural statistics.
