Elwell, 2001-05-01 Fifteen years after its original publication comes a thoroughly revised edition of the Evangelical Dictionary of Theology Every article from the original edition has been revisited With some articles being removed others revised and many new articles added the result is a completely new dictionary covering systematic historical and philosophical theology as well as theological ethics **CHRISTIAN APOLOGETICS** Francis Beattie, 2022-06-07 Originally written in 1903 by Francis Beattie Christian Apologetics is a comprehensive examination of the rational foundations of the Christian faith This treatise delves into the philosophical historical and theological underpinnings of Christianity offering a robust defense against various critiques and alternative worldviews This updated edition has been carefully revised to make Beattie s profound work accessible to contemporary readers The original text rich in depth but laden with archaic language and complex structures has been modernized for clarity and readability Outdated scientific and philosophical references have been updated to reflect current understanding and spelling grammar and syntax errors have been corrected Moreover we have replaced the archaic Bible translations with the Updated American Standard Version UASV to maintain the integrity of Beattie s arguments while ensuring accuracy and readability In this volume readers will find a systematic exploration of key apologetic themes including the nature and scope of apologetics the philosophical foundations of theism the psychological aspects of religious belief and the critical examination of antitheistic theories such as atheism materialism and agnosticism Each chapter is designed to build upon the last creating a cohesive and compelling case for the rationality and necessity of the Christian faith This edition retains the scholarly rigor of the original work while making it more accessible to today s readers It is an essential resource for students scholars and anyone interested in the intellectual defense of Christianity By bridging the gap between historical and contemporary thought this revised edition of Christian Apologetics ensures that Beattie s invaluable insights continue to enlighten and inspire 52 Apologetics Michael D. The Layman's Manual on Christian Apologetics Brian G. Chilton, 2019-11-14 Modern Christians have been bombarded by objections launched against the Christian faith from popular secular authors bloggers and stars from the entertainment industry The church is quickly beginning to acknowledge the need for apologetics due to the number of youth and adults alike leaving the faith But how does one respond to these objections For the laity of the church this is especially difficult as many are left without the proper training to know how to answer these objections In *The Layman's Manual on Christian Apologetics* the essentials of apologetics are taken from the ivory towers of academia and are made available to those who have not obtained seminary training or for those thinking about attending seminary In this book three major areas of apologetics are covered The first unit engages the nature of truth and what can be known The second unit deals with the existence of God and issues involving God's existence The last unit tackles historical objections to the resurrection of Jesus and early Christianity *The Layman's Manual on Christian Apologetics* delivers heavy apologetic issues with the laity in mind and blends in personal illustrations to make the material applicable
